FEEDBACK ON COMMANDER'S PARENTS MEETING

First of all, we thank you for conducting the meeting. Through this meeting we came to know about the responsibilities and duties that you have assigned to the students. These make the students **accountable for their respective tasks** due to which their **leadership qualities** and **management skills** build up. The effect of this plays a major role in students' career as they gradually learn the art of tackling every situation. Secondly, this meeting gave an insight into the **divisions** like **safety, health care, cleanliness, environment enrichment, placement, sports, SBI, talent promotion, energy saving;** that the students are going to take care of.

Finally, we thank you once again for **encouraging students** in these **extracurriculars** alongside the academics. As parents we assure you that our daughter would responsibly perform her duties and we'll support her in all basis.

*I am very happy to see all the **leaders** and **commanders** who are taking charge in their positions. It's a good idea instead of giving all the work to a particular person it is nice way so that all the students will gain the **leadership** and **managing quality**. This kind of activities make students in a great way. I really want to thank secretary mam Mrs. Babai who is taking initiative and more responsibility for our children future because I haven't seen these kind of activities in any colleges and she is shaping her students in a signature form.*

Thank you

Feedback

The program conducted by the management helped us to know about the importance and responsibilities of our children .It also helps us to know that are children are knowing how to rule and how to manage the responsibilities by being commanders. The explanation by the secretary for each commander's made us to know about the **importance of each commanders**. We are happy and proud about our children while knowing that our children are learning how to manage things and this will surely help our children in future when they go jobs. This commander position will surely help our children during their work as they will become as project managers or project head.This will surely give them responsibilities and also experience of managing things. I thank the management and the secretary for conducting this program which helped us to
