Engineer's Day

The Department of Mechanical Engineering conducts a series of events on Engineer's day. On an average 150 students participate every year.

Eminent speakers are invited to present their research work and discuss recent developments in industries. A set of activities are conducted for the benefit of students to correlate engineering education and its true applications with emerging burning challenges of society.

Mahatma Gandhi, - 'Mahatma': A formalized nickname of a lot of people. It's always big things set go in a way simple, like that his life & people attracted towards him.

What made people attracted towards him in even such a period of ^{19th} ~~18th~~ century, Britain. Such things of Gandhi. Is he young, during the time?

Whether he was well understood of people's problems? With the leader because for all the people?

For lot more of questions and more questions, he can answer confidently with his balanced and practical manner or traits - Love, Truth, Strongness, Ahimsa.

Yes, he was old
Yes, he was 46, when his comeback to India.
He learned some better things earlier.
That, he travelled all over the country as per his Guru, Swami Vivekananda's words, He understood the people's problems.
Hence, he stands up as Mahatma of our only as he could reach himself if his truth took anything uncomfortable. Think why he is Mahatma.
It's not about his wholesome greatness characterization, it's about his holiness towards his God, Truth with the devotion, Ahimsa.

GANDHIAN TRAITS THAT I ADMIRE THE MOST

We all know that, Mahatma Gandhi was born on 2nd October 1869, which is celebrated as Gandhi Jayanti.

But, many of us all might not know that it also celebrated as International day of Non-violence.

Gandhi used to say "MY LIFE IS MY MESSAGE", which I admire the most from all his sayings.

Here, are some of his traits which I admire the most at assistance of my life and few quite sometimes, I used to abide them by all.

FAITH IN SELF:

"In a gentle way, you can change the world".

Men often become what they believe themselves to be. If I believe I cannot do something, it makes me incapable.

Merit Skill Excellence Caliber Contest

To
The Principal

Respected Sir/Madam,

We are delighted to inform you that we are celebrating the **150th Birth Anniversary of the Father of the Nation, Mahatma Gandhiji**. It is the duty of every human being, especially every Indian citizen, to follow the footsteps of the Mahatma and adopt Ahimsa (non-violence), Desha-bhakti (love for the motherland), Sathya (truth) and Shrama-daana (hard work) as the "Thaaraka-manthras" or cardinal values in life.

As you will surely agree, it is **extremely important that the youth of our country imbibe these values that were taught by Gandhiji not just through precept but by practice**. This task of training our youth in this aspect, is perhaps **one of the most important contributions that we can make towards nation-building**, for the youth are the nation's future, and their value-systems will dictate India's destiny. This is an opportune moment for us to resurrect Gandhiji's life and times in the minds of our youth, as a definitive step in this direction.

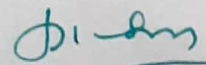

The students in the final year of school, now stand at the cusp of a new beginning. They would be joining higher educational institutions all over the country and indeed the world, to chalk their future paths. **It is therefore essential that we all come together to infuse these values into the 12th Standard students to prepare their internal dimension for the very near future.**

At this juncture I would like to state that Meenakshi Sundararajan Engineering College, has been recognized as among the **TOP 10 Engineering Colleges in Tamil Nadu by Anna University, for academic excellence right from its inception and well known for excellent placement record**. It is also well known for its commitment to inculcating values and ethics among the students.

Hence, as part of the 150th year birth anniversary celebrations of Mahatma Gandhiji we at Meenakshi Sundararajan Engineering College have conceived of an **Inter-School Quiz Competition for high school students in Chennai**. The Quiz will be on General Knowledge and will also have two rounds that are focused on the life of Mahatma Gandhi and the values he preached.

The preliminary and final round are slated for 5th December, 2018 at our college premises from 10.00am, for which I request you to **nominate at least 10 teams from your school, each team comprising 2 students from the 12th Standard**. From the total participants, 27 teams will be shortlisted and out of which 8 teams will be selected for the finals.

Registration starts at 9.00am	Prelims starts at 10.00am
Final starts at 1.30pm	Valedictory function starts at 3.00pm

Prizes worth more than Rs. 3.5 lakhs are up for grabs. The details of the prizes are given below:

I Prize	-	Rs.1,00,000/- (Rs.50,000/- for each student in the team)
II Prize	-	Rs. 60,000/- (Rs.30,000/- for each student in the team)
III Prize	-	Rs. 40,000/- (Rs.20,000/- for each student in the team)
Consolation	-	Rs. 50,000/- (for 5 teams) (Rs.5000/- per each student)
		Rs. 54,000/- (for 9 teams) (Rs.3000/- per each student)
		Rs. 40,000/- (for 10 teams) (Rs.2000/- per each student)

The first three school which sponsors more number of teams will be honoured recognizing their thirst for excellence.

All participants will be issued with participation certificates after the valedictory function.

In addition to the above, the schools of the prize winners will also be recognized. Registration (refer www.msec.edu.in/mseccontest) closes on 2nd December 2018 at 5.00pm.

No Registration Fees.

Participants are requested to come with ID card and bonafide certificate issued by the Principal. We also invite the parents and teachers to participate in the prize distribution function at 3.00pm.

I am confident that committed educationists like you will support this endeavour and will encourage your students to participate in full strength and enthusiasm. I look forward to an early and positive response from you.

Yours in the service of our nation,

With regards and best wishes,

Dr.K.S.Babai

REPORT ON ONE DAY SEMINAR
ON
ENTREPRENEURSHIP

While the definition of entrepreneurship has stayed constant for decades, the possibilities for wannabe entrepreneurs have definitely evolved. A one day seminar on "Development on entrepreneur skills" was organized at the seminar hall on **8th January, 2020** at Meenakshi Sundararajan Engineering College. The speaker of the occasion introduced by R.Santhoshi of ECE 'B' IIIrd year. The seminar was delivered by **Mr.Vivek Kopparthi** who is the **co-founder and CEO of NeoLight**, and an alumni of our college. He was welcomed with a bouquet by Kavinder of ECE 'A' IIIrd year. It was attended by the students of year II and III from all the departments.

Mr.Kopparthi did his schooling in DAV and completed his bachelorette in Electronics and Communication at Meenakshi Sundararajan Engineering College, Chennai in the year 2011.Later he worked at Dell as a Network Dev Assoc Engineer for 2 years and then moved to Arizona State University in 2013 for his Masters in Management. Following the steps of his inspiration Elon Musk, he co-founded the start-up company Neolight a babytech company that delivers smart, integrated, family-friendly products that empower parents to confidently care for their newborns along with his friend and co-founder, Mr.Sivakumar. He was listed on the 30 under 30 list in the healthcare category of Forbes in the year 2017.

Initially he briefed the students about his company and Skylife, the product he developed. Skylife delivers a narrow band of high-intensity blue light to provide efficient treatment for neonatal hyperbilirubinemia, commonly known as Jaundice.It is designed to be used within most neonatal enclosures, including bassinets, incubators and radiant warmers for babies of all severities of Jaundice.

A Q&A session was followed in which Kopparthi opened up more about entrepreneur skills and enlightened the students. He talked on how one should not be afraid of failures as they serve as lessons for life. He reminisced about his experience as a symposium co-ordinator which served as the foundation for his leadership and fundraising skills. He believes that an engineer by default must be a problem solver. Many questions about forming and managing a start-up company was raised by the students. He also expressed that mentors play an important role in a budding entrepreneur's life. He quoted Ratan Tata ("If you

want to walk fast, walk alone. But if you want to walk far, walk together”) to assert the success of a project. During his burnout’s his hunger to accomplish his goals and the support from his family, friends and mentors kept him anchored. He displayed his résumé which listed all of his accomplishments over the years. His only regret is that he could have reached this height in a shorter period of time and advices the students to utilize their time wisely and to hustle harder.

The seminar concluded with Mr.Kopparthi being presented with a memento by Prof.Balasubramaniam. The vote of thanks was delivered by Sagaya Agnes Rayan.T of ECE ‘B’ IIIrd year.

The seminar served to be a very enlightening and enriching experience for the students and it motivated their entrepreneurship to achieve their goals.
