DESCRIPTION

Deforestation is the permanent removal of trees to make room for something besides forest. This can include clearing the land for agricultural or grazing or using the timber for fuel construction or manufacturing. Forest cover more than 30% of the Earth's land surface, according to the World Wildlife Fund. These forested areas can provide food, medicine and fuel for more than a billion people. Worldwide, forests provide 13.4 million people with jobs in the forest sector, soil erosion, global warming and to maintain ecological and biodiversity balance, afforestation is necessary. This can be combated in two ways reforestation and afforestation. The trees use carbon dioxide and water to convert into oxygen and wood respectively. The tree planting program was carried out on 27.06.2022 by the NSS and YRC of Meenakshi Sundararajan Engineering College. **A total of 10 trees** have been planted successfully in and around the college campus. The program ended with group photographs. Tree planting programs encouraged interest among the students towards the nature. This tree planting program provided an opportunity to the students to get involved in the environment and natural resources conservation. Students become aware that they can play a role in protecting the environment through personal involvement. So it is the responsibility of each and every citizen of the country to build a cleaner and greener environment by planting trees. "WHAT WE ARE DOING TO THE FOREST OF THE WORLD IS BUT A MIRROR REFLECTION OF WHAT WE ARE DOING TO OURSELVES AND ONE ANOTHER".

are disabilities that are not immediately apparent. So, it is important for students to learn to identify and them and act accordingly. The awareness program was conducted on the 3rd of November, 2022 at the Prof. K.R.S Centenary seminar hall. The students were addressed by Divya Krishnan, Special Educator (Multiple Disabilities, Psychologist, creative art therapist). She spoke about different hidden disabilities, signs exhibited by such persons, and how to understand them. A total of 50 students attended the program along with their faculty co-ordinators – Mr. S. Bala Subramaniyan (Asst. professor, YRC co-ordinator) and Mr. S. Satheesh Kumar (Asst. professor, NSS co-ordinator). The program ensured understanding among the students about different disabilities and made sure that the students would be able to empathize and support people with such disabilities. So, we cordially thank the organisation for conducting such programs for the students and faculties.
