GUEST LECTURE REPORT

RESOURCE PERSON: Mr N. Suresh Kumar, M.D, 360 Degrees Academy.

TOPIC: ECE FUNDAMENTALS.

On the 31st of July 2017 a guest lecture was conducted on the topic Electronic Fundamentals by Mr N. Suresh Kumar. He had a vivid knowledge on the topic and made the session very interactive, also enhanced the student's technical knowledge and gave them confidence to face technical interview.

Mr N. Suresh Kumar gave idea to the students on how to analyse a circuit and the project ideas that can be taken by the students as their final year project. The session was very interactive and useful.

GUEST LECTURE REPORT

DATE: 29/7/2017

SESSION I: Network security and cryptography

A guest lecture was conducted on the topic Network security and cryptography by Ms. Nandhini. She had a vivid knowledge on the topic and made the session very interactive. Through this session the students understood that there are certain issues to that could raise questions about privacy in the internet and thus cyber security is an important subject to be aware of.

Thus to enhance the security of information over the internet students interestingly learnt a lot about cryptography. Starting from the ancient cryptography and now till the modern times cryptography has been used as an essential part while sharing the information. Ms. Nandhini taught all these more clearly by showing all the types of cryptography that people now use in the internet and other various ways to secure our information. It was a great opportunity for students to learn about information security enhancement over the internet.

SESSION II: System Design using ARDUINO

Second session was conducted by Mr. C. Sivaganesh on the topic System design using Arduino. The students were interested and excited to know the internal structures and to build a system using the Arduino. Mr. Sivaganesh taught the students about techniques of building the system structures using the Arduino. Learning how to do a complete design helped the students to enhance their vision in the system design interior.

They clearly explained the basic functions and the working of many devices and how it could be easily built using microcontroller. The session was very interactive and also creative.

REPORT ON GUEST LECTURE-PROGRAMMING IN C & C++

A Guest lecture for Programming in C and C++ was conducted on 1st July, 2017 by Mr. Harisanthosh, Analyst-system Dev

The lecture was about the basics of Programming. IV year students of ECE attended the session and the students felt it to be very useful in gaining knowledge about it with certain codes implemented. The Session was not only interesting but it also made the students to gain a lot in depth with real time examples.

The concepts were explained in detail along with the need for such concepts. Also students were able to understand the basic difference between C and C++. Features and OOPS concepts were also discussed as the session went on.

The speaker showed us a few videos as well in order to feel the real time need of coding all over the world. The session was fully application oriented. The real time puzzles were also solved by the speaker and he gave us a few simple puzzles as well.

Overall it was a good experience and thus students were able to learn a lot through this session about the use of Programming in real time and students were able to relate with the importance given to coding.

SYMPOSIUM 2017 WORKSHOP - EMBEDDED SYSTEMS AND CLOUD COMPUTING

CHIEF GUEST: Mr.Md.Hussain, unique Technologies.

A Workshop was conducted on the topic EMBEDDED SYSTEMS AND CLOUD COMPUTING. Students found it very useful and interesting. They perceived a different aspect of system design. The session was very interactive. The students were given different ideas on how to initiate mini projects and proceed with their final year project in the domain of Embedded Systems. The workshop received very positive feedback.

AVALANCHE 2018 REPORT

The one-day technical seminar, Avalanche was organized by the department of Electronics and Communication Engineering on the 20th of January, 2018. The seminars conducted by two distinguished Mr.J.Ezhilarasan and Mr.Aravind Ananthasuri proved to be a very useful and inspiring experience for the students. The ideas and fervour brought about by the young speakers who had the students enraptured by their innovative ideas and engaging presentation.

Mr. Aravind Ananthasuri from Chakrabiz technologies, who is specialized in iformation security assurance and governance, had spoken on many recent intriguing topics such as cyber security which is the need of the hour. His vivid, animated and detailed slides kept the room captivated throughout the presentation. His detailed descriptions on the topics along with various day-to-day examples helped the students in understanding the nuances in the subject.

Mr.J.Ezhilarasan from Tapco Pneumatics shared his infinite knowledge in the field of electronics and circuits and left a long-lasting impression on the students with his zeal and enthusiasm in the topic. The main focus of his presentation was "effective analog design" i.e., simple and efficient means of designing complex electrical and electronic circuits. His encouragement and enthusiasm in applying the knowledge in electronics for establishing start-ups, supported by some interesting videos, was indeed, very inspiring.

On the whole, this one-day technical seminar proved to be a huge success that enlightened and inspired many young leaders of tomorrow. Both the speakers brought in brand-new information and new ideas to the forum, thus making this seminar an informative and intriguing one for everyone in the room.

National Conference on Advancement in Emerging Technologies (NCAET -2018)

The National Conference on Advancement in Emerging Technologies (NCAET-2018) was conducted by the Department of Electronics and Communication Engineering in Meenakshi Sundararajan Engineering College on 15th March, 2018. The event witnessed an active sharing of knowledge among the students and various experts from industries and colleges.

The sessions were presided over by Dr.M.A.Bhagyaveni, Professor, Department of ECE, CEG, who also gave the keynote lecture, Dr.Thirumalai, Ph.D., and Mr.S.Balaji, Assistant Professor, Department of ECE, Loyola I-CAM. Candidates from various colleges such as Rajalakshmi Engineering College, St.Joseph College of Engineering, R.M.K College of Engineering, GTEC (Vellore), Sri Sairam Engineering College, Sri Venkateswara College of Engineering, etc., had submitted their paper. The shortlisted candidates were then invited to present their paper in our college. Ideas and projects on a wide range of recent, innovative topics were presented, namely:

- VLSI & Embedded System
- · Signal & Image processing
- · Wireless communication & Networks
- Nanotechnology
- Network & Information Security
- Opto Electronics
- Robotics
- Biomedical Instrumentation & Telemedicine
- MEMS
- Internet Of Things(IOT)

The papers that were shortlisted were also published in the Global Research and Development Journal for Engineering (GRDJE). On the whole, the objective of the conference, to shine the spotlight on the latest research and projects concocted and built by students and to provide a platform for them to discuss their experiences in the emerging recent trends in electronics and communication with experts and scholars from various institutions and industries, was successfully achieved.

Dear Sir,

Greetings from NCAET!

On behalf of the management and my department, I thank you wholeheartedly for your presence in our 5th National Conference on Advancement in Emerging Technology (NCAET-2018). It was an invaluable experience for our students and the questions posed by you have made them develop their technical knowledge further.

It was an honour to have you with us!

OBJECTIVE:

- The guest Lecture is designed to help the students examine the importance of intelligence required to sustain in the current field. We also seek to enhance critical thinking skills
- to showcase the latest technologies in research and education from outstanding academic researchers

OUTCOME:

- O Students would be provided a good Overview on Agile Technology.
- They can understand to an extent of what the industry demands and how equipped they should be to meet the industry standards.

INTERINTERNATIONAL CONFERENCE ON INNOVATIONS IN INFORMATION AND COMMUNICATION TECHNOLOGY

ICIICT'18

9[™] AND 10[™] MARCH 2018

CONFERENCE ABSTRACT

Organized by

DEPARTMENT OF INFORMATION TECHNOLOGY
IN ASSOCIATION WITH CSI, CHENNAI CHAPTER

ABOUT THE CONFERENCE

The objective of this International conference is to provide a platform for researchers, academicians, developers and students to share their knowledge and expertise for their mutual and social benefits. The focus of the conference will be on all the faces of current technological innovations and related issues in Information Technology.

ABOUT THE COLLEGE

Meenakshi Sundararajan Engineering College, Chennai constantly strives to be a center of Excellence with the singular aim of producing students of outstanding academic excellence and sterling character to benefit the society ,our nation and world at large. Fidelity, Faith, Fortitude are the high values that have made him propel to greater heights. The gem of his quality was that he never stopped with drawing plans and suggesting action - he was the first to bring them into practice, whatever may be the obstacle, he used to implement them.

ABOUT THE DEPARTMENT

The department constantly strives with the singular aim of producing students with outstanding academic excellence and sterling character to benefit the society, our nation and the world at large. The dedicated and committed staff, excellent infrastructure, well equipped computer labs with the latest hardware and software ensures that the students are molded with strong conceptual understanding in the core topics in Information Technology.

OUR VISION

To be a department that best serves industrial needs, employing technically savvy students who serve the nation at large.

OUR MISSION

- 1. To enrich and enhance the knowledge of its students with the latest developments.
- 2. To mold students with ethical and moral values.
- 3. To apply the concept of information technology within the institution through innovative applications.

MESSAGE FROM CORRESPONDENT DESK

"Burning enthusiasm multiplied with patience and perseverance, always brings success"

These were the strong beliefs of Professor K.R.SUNDARARAJAN, the founder of the Indian Institute of

Engineering Technology [IIET]. It is important that we understand the innovations in Technology in

today's fast moving world and I appreciate the Department of Information Technology for choosing

"INNOVATIONS IN INFORMATION AND COMMUNICATION TECHNOLOGY" as their theme for

the International Level Conference. I hope this International level Conference will be an eye opener to

everyone on the current trends in Information Technology. I am proud that this event is the result of the

hard work put by all the students and it's also important to mention the support and encouragement

provided by the department professors.

Dr. K.S. LAKSHMI

MESSAGE FROM SECRETARY DESK

"Wisdom is not a product of schooling but of the lifelong attempt to acquire it."

Meenakshi Sundararajan engineering college has been a forerunner in recognising the needs of industry and integrating knowledge with professional inputs. Our college is one of the most eminent higher education institutions today and it is renowned for the standards of its facilities, students and alumni, by maintaining a team of core faculty members, who are constantly pushing the frontiers of knowledge. In today's high technology environment, organisations are becoming more and more dependent on their information systems. The development of communication has led to ponder over more ideas. The day to day innovations also serve as a huge threat. To bring over more ideas in the "RECENT DEVELOPMENTS" the Department of Information Technology have chosen the theme ""Innovations in Information and communication technology" for their International level conference. I wholeheartedly wish them a grand success in their ventures.

PRINCIPAL

MEENAKSHI SUNDARARAIAN ENGINEERING COL 363, ARCOT ROAD, KODAMBAKKAM, CNEMMAI-500 02A

Dr. K.S. BABAI

MESSAGE FROM PRINCIPAL'S DESK

I feel jubilant in writing this message for the International level conference organised by the department of

Information technology, Meenakshi Sundararajan Engineering College, Chennai. The theme chosen is

"INNOVATIONS IN INFORMATION AND COMMUNICATION TECHNOLOGY". The world today is

"OF IT, BY IT, FOR IT". This calls for a high security cover for Information technology applications. I am

sure that this conference will be a step towards developing professional skills and keeping abreast of the

advances in technology. Here I place my appreciations towards the dedicated faculty and sincere students

for their effort in organising the event.

Dr. P.K. SURESH

q

MESSAGE FROM DEAN ACADEMIC'S DESK

"A JOURNEY OF THE THOUSAND MILES BEGINS WITH ONE STEP" - Confucius

I feel extremely proud that the Department of Information Technology has striven hard in organising the International Level Conference 2017. It is indeed essential that we fathom out the ideas behind today's technological world. The theme "INNOVATIONS IN COMMUNICATION AND TECHNOLOGY" clearly emphasizes on the current trending topics in the field of technology. I truly believe this International Level Conference would make the participants updated with the innovations in technology. I appreciate the efforts taken by the teaching faculty of the department and constant support for making this event a grand success. I WISH THE DEPARTMENT SUCCEES IN ALL THEIR ENDEAVOURS.

PRINCIPAL
MEENAKSHI SUNDARARAJAN ENGINEERING COL

BENAKSHI SUNDARANAJAN ENGINEERING COL 363, ARCOT ROAD, KODAMBAKKAM, CNEMMAI-600 1924 -Dr.K.UMARANI

MESSAGE FROM HOD'S DESK

It's indeed an immense pleasure that the creative and dynamic students of the Department of Information Technology have taken all the efforts to conduct the International Level Conference which is to be scheduled on 17th March 2017. The theme that we have chosen is "INNOVATIONS IN INFORMATION AND COMMUNICATION TECHNOLOGY" which clearly signifies the influence of technology in our day to day lives.. With this theme we wish to ignite the minds of people with innovative technologies. I also applaud the students and the staffs of the IT Department for bringing out this event as a magnum opus. I hope that "INNOVATIONS IN INFORMATION AND COMMUNICATION TECHNOLOGY" will serve as a guiding spirit for the forthcoming ventures by the students.

EVENT NAME: WORKSHOP

DATE:20.06.2017

IT Department of the Meenakshi Sundararajan Engineering college conducted One-Day Workshop on "Python for White hat ethical Hacking" on 20-06-2017 in IT Seminar Hall for second, third and final year students of IT department. HOD of IT, Mrs.A.Kanimozhi welcomed the resource person, faculty members and students of IT department. This lecture was delivered by Mr. R.Shyam sundar, Currently working as Security Research analyst, CISCO, Bangalore. Mr. R.Shyam sundar, explained the basic Programming Using Python.

Staff Coordinator:

- 1.Mrs.N.Mathagi, Sr.Assistant Professor/IT
- 2.Mrs.S.Priskilla Manonmani, Sr.Assistant Professor/IT

Objective:

- Participants will gain hands-on experience in Python through a series of practice sessions and quizzes.
- The goal is to have students making professional ethical hacker.

Some of the important points highlighted:

- Basic Data Types
- Control Flow
- Core Data Structures
- Functions
- Files
- Modules
- Exceptions

J. Sim

PRINCIPAL
MEENAKSHI SUNDARARAVAN ENGINEERING COL
363. ARCOT ROAD, KODAMBAKKAM.

CHEMMAI-500 02A

Session 1:

Timing:8.30am-10.00 am

Topics covered:

- Why python?
- · Introduction about python programming language.
- · Learning the strengths of the language and what's good with python.
- · Learning where to use Python and why.
- · Python as an interpreted language
- · How to choose correct interpreter, install it, run it.
- · Python virtual environments.
- · Text editor (kate, gedit, brackets).
- · How to create Hello world, from interpreter and with .py script.
- · Standards and batteries included

Competences gained after session1:

- understanding python and how to install it
- · understanding python virtual environments
- · using the interpreter and running a python script
- · advanced text editors for coding

Session2:

Timings:10.30-1.00pm

Topics covered:

- Python data types and flow control statements
- · Ifs, fors, whiles
- · Lists (slices), dictionaries (loop over items), sets
- Classes and object instances
- Everything is an object (does strings, getters, setters, override)
- Practical example

Competences gained after session 2:

- understanding basic python data types
- · knowing what classes are and how to use them
- understanding exceptions and know how to handle them

PRINCIPAL

MEENAKSHI SUNDARARAJAN ENGINEERING COL 363. ARCOT ROAD, KODAMBAKKAM,

CHEMNAL-500 02A

Session3:

Timings: 2.00pm - 5.00pm

Topics covered:

- Opening and reading from files.
- Read file with a sentence per line.
- Manipulate and gather metrics on each sentence.
- Output a file with metrics on each sentence.

Competences gained after session 3:

Understanding how files work

Report Workshop on "Internet of Things and its Applications"

IT Department of the Meenakshi Sundararajan Engineering college conducted One-Day Workshop on "Internet of Things and its Applications" on 27-01-2018 in IT Seminar Hall for second, third and final year students of IT department.

The workshop commenced with welcome speech by Mrs.A.Kanimozhi (Head, IT Dept.) and welcomed the Expert and participant and explained the objectives and importance of the workshop. Introduction of Resource person by Mrs.N.Mathangi, Sr.Assistant Professor/IT.

About Resource Person: Mr.R.Rathinasamy, Currently working as Technical Manager, ENTHU Private Ltd, Coimbatore. He was an industry expert and shared his insights, real life scenarios, practical use cases and their solutions on Internet of Things and Hands on Development using various IoT kits. First session started with keynote lecture on IoT and future of connected world by the session was spread over first half of session-I and it provided the insights of IoT applications for smart home, smart cities, smart light etc... then he formed a few teams of participants for next session & provided IoT kit for starting hands on session.

The participant's feedback was collected at end of workshop. We received the good feedback and participants suggested to organize this types of advanced workshop in future. The certificates were distributed to all attendees in valedictory function of the workshop.

Program Coordinator:

1.Mrs.N.Mathangi, Sr.Assistant Professor/IT

2.Mrs.S.Priskilla Manonmani, Sr.Assistant Professor/IT

Content of One day workshop was as following:

- Introduction to the Internet of Things
 - The Internet of Things
 - The Basics of Sensors & Actuators
 - Basic IOT Architecture
- * The Arduino Platform
 - The Arduino Open-Microcontroller Platform
 - Arduino Basics
 - Arduino Board Layout & Architecture
- * Reading from Sensors
- * Programming fundamentals (C language)
- * Arduino Programming & Interface of Sensors
 - Interfacing sensors with Arduino
 - Programming Arduino •
 - · Reading from Sensors
- Project 1: Simple LED Program for Arduino
- Project 2: Integrating Sensors & Reading Environmental Physical Values.
- Project 3: Reading Environmental Values on Android Smartphone.
- Project 4: Send Voltage& Analog Data on Cloud Server.
 - Cloud Computing
 - Communicating with the Cloud using Web Services.
 - Cloud Computing & IoT.
 - Popular Cloud Computing Services for Sensor Management.

Resource Person's Invitation Letter:

Dear Madam .

Greetings from SANDS !!!

We approve and accept for the below mentioned Guest Lecture at Meenakshi Sundararajan Engineering College, Chennai.

From our side Mr. Murugan shall co-ordinate with you and complete the assignment.

Thanks & Regards.

Event: Guest Lecture

Date: 16.02.2017

Title: Project Planing

Resource persona Name: P.K. Jeyakumar

Name of participant: Harish

Your feedback is important for planning future programming. Thank you.

Please indicate your feedback (√) to know the Outcomes obtained from this program using the following scale:

4=Extremely High 3 = High 2 = Normal 1 = Average

S.NO	Questions	4	3	2	1
1	How would you rate your learning experience through this event?		1		
2	How much has the event improved your skills?	1			
3	How much has this event helped you keep yourself updated with the current trends of the industry?	1			
4	How much has this event inspired you to research/explore more into the field of technology?		1		
5	How much has it encouraged you to participate in various events in the future?		/		

Any other Comments/suggestions:

SEMINAR ON INDUSTRIAL AUTOMATION

CONTENTS

Introduction to Automation, Automation industrial Application, Facility based Application, Plant Application, History of Automation, Automation Tools

Introduction to PLC, I/P Devices and O/P Devices, PLC Programming Languages, Ladder Diagram, PLC Advantages.

Industrial Automation Based Application related Videos, Introduction to SCADA, Screen Development, Advantages of SCADA, HMI and its application. Introduction to PAC system.

Tea break

Motivational Videos of Industrial Automation, Variable Frequency Drives and its applications. Distributed Control System, GSM PLC, Intelligent Motor Control Centre.

Servo and its application, Introduction to Industrial Robotics and its type configurations. Applications of Industrial Robotics, Students Queries.

MEENAKSHI SUNDARARAJAN ENGINEERING COLLEGE DEPARTMENT OF ELECTRICAL AND ELECTRONICS ENGINEERING GUEST LECTURE

Time : 2.30pm - 4.30pm

Date : 06/01/2018

Venue : Final Year Class room

Topic : "Recent Trends on Cloud Computing"

Resource Person: Mr S.Babu

Software Engineer

Sub: Request for Guest Lecture

Respected sir,

To enhance the Technical capabilities of our students, Guest lectures are arranged on topics outside the curriculum. In this connection, for the Final Year students of EEE department, we are arranging a lecture session for which I request you to kindly be a resource person for the lecture on the "Recent trends on Cloud Computing" on 06/01/2018 2.30 pm to 4.30 pm. The students will be benefitted by the lecture & the knowledge imparted to them Kindly treat this as the invitation for the lecture.

Thanking you

With warm regards

K. Rajeswari

Dear Sir / Madam,

Sub: Invite for Evaluating the papers for National Conference - Reg.

We are glad to inform that EEE Department of Meenakshi Sundararajan Engineering College, Kodambakkam, is organizing a National Conference on 9th March 2018 titled as National Conference on Recent Trends in Electrical Engineering (NCRTEE'18).

This National Conference aims to provide a platform for Researchers, Academicians, Developers and Students to share their knowledge and expertise for their mutual and social benefits. The focus of the conference will be on all the facets of current Technological Innovations and related issues.

On this occasion, I warmly invite you to be a Resource Person for the paper presentation in the Afternoon session(1.30pm to 4.00pm).

I look forward to your whole-hearted support and good wishes for the successful completion of this important Technical event.

Thanking you,

With warm regards, Dr.K.S.Babai.

To,

The Conference Co-ordinator, National Conference on Recent Trends in Electrical Engineering-NCRTEE'18, Meenakshi Sundararajan Engineering College, Kodambakkam, Chennai

Respected Sir,

Sub: - Regd. Permission for not attending National Conference on 9th March 2018.

As our paper proposal named "Modelling of electrostatic wind energy converter with solar panel design" was been accepted for your National Conference on Recent Trends in Electrical Engineering-NCRTEE'18, but, I can't attend national Conference on 9th March 2018. Due to the preponement of IELTS Examination on that day. Hence, accept my batch mate K. Naveen Kumar will be attending the conference instead of me, kindly provide him On-spot registration processing to carry on with your Conference.

Thanking you,

Yours Sincerely,

Tuning of PID Controller for Biochemical Reactor using IPSO Algorithm

OMPRIYADHARSHNI.K*, JABATHIRA.A, MAHESHWARI.B, AKSHAYA.N Department of EIE, St. Joseph's College of Engineering, Chennai 600119, Tamilnadu, India. e-mail:ompriyadharshni33@gmail.com

Abstract— This paper addresses an improved PSO algorithm based PID controller tuning for a model biochemical reactor. Biochemical reactor is a highly nonlinear process and exhibits multiple steady states. To increase the productivity and to achieve the required performance, it is necessary to use optimised PID controller parameters. The work presented in this article, deals with the I-PD based controller design using PSO algorithm in order to minimise the effect of proportional and derivative kick. The gain (set point) scheduling is simulated with a switching unit controlled by a comparator. The simulation result shows a better performance for set point tracking and disturbance rejection.

Keywords- Biochemical reactor, PID, PSO, Scheduling

I. INTRODUCTION

In chemical process industries, the contribution of Proportional + Integral (PI) or Proportional + Integral + Derivative (PID) takes up a major part, since it provides robust, optimal performance and also its simple structure. It can be easily realizable in analog and digital form. Ideal PID structures contribute widely in theoretical analysis. Real time applications are less supported due to constraints in implementation [6, 8]. Models such as PID (series / parallel), PID with filter, I-PD and ID-P structures are widely employed to enhance the present performance strategies in control areas. Various model based studies on fine tuning of PID controllers has provided insight for understanding the controller performance. The model based methods seems to be complex, since its performance depends on an approximated process structure and also the requirement of process details such as ultimate gain (Ku) and Ultimate period (Pu). In addition, unique methodology for model identification does not exist. Further, precise model identification for real time processes appears to be complicated. The real time processes are accounted as low order associated with time delay models as first order or second order time delayed models [7]. Autotuning of PID parameters are widely used in industrial and research area. An ideal / modified relay feedback can be used to identify the approximate process model and also the values of $K_{\rm u}$ and $P_{\rm u}$ For open loop unstable system, the application of relay tuning is limited by delay time (d) / process time constant (τ). Tuning the PID for open loop stable system model is simple and a number of tuning formulae is available [1, 6, 7, 11]. For open loop unstable systems, the controller tuning is very complicated and at time it is impossible to obtain the desired closed loop response due to the mismatch between the real process and approximated model. Due to these constraints, a model free method is widely preferred for controller tuning.

Controller design for the chemical process loop is one of the major research areas in the field of process control. Process control loop such as Continuous Stirred Tank Reactor (CSTR), biochemical reactors, distillation columns, has multiple steady states. Controller design for such loop is very difficult and it may require traditional tuning methods along with advanced technique such as Internal Model Control (IMC), Model Predictive Control (MPC), Neural Network (NN), Fuzzy, Adaptive Neuro Fuzzy Inference System (ANFIS), Genetic Algorithm (GA) and Particle Swarm Optimization (PSO) algorithm. The advanced control technique such as MPC, the importance of PID control has been enhanced, because MPC is most often constructed hierarchically with PID controllers at the lower regulatory layer, and well tuned PID controllers are prerequisites for successful advanced control implementation [4]. Real time implementation of Neural Network based controller is a challenging task.

Tuning a PI/PID controller for a system with multiple steady states is a challenging field. This can be achieved by a gain scheduler. It can be used to control processes at different operating points with differing dynamics. This system consists of a family of local controllers and a switching unit (scheduler). This switching unit is used to activate the controller depending on the operating region. The particular operating region can be scheduled based on the set point (or) based on the plant operating time/value [10].

For all the PID structure, the main goal is to find optimal values of the controller parameters to achieve the required closed loop performance.

Bioreactor control was widely studied by the researchers due to its importance in chemical and biochemical engineering. Recently a PSO based PID was proposed for an unstable bioreactor and it is observed that it has a P and D kick [7]. In this study, an Improved PSO algorithm is attempted to control a biochemical reactor with I-PD controller structure.

II. BIOCHEMICAL REACTOR:

The biochemical reactor is an essential unit operation in a wide variety of biotechnological processes. In this system, living cells are used to produce marketable intermediate and final products, including chemicals, medical products, food products, beverages, and industrial solvents with the help (process) of biosynthesis. In a basic reactor, the major components are biomass and substrate. The biomass consists of cells, consume the nutrients (substrate) to grow and produce more cells and important products. The cent aise produces energy and more cells from the nurrients [3].

The basic reaction and planeactor is MEENAKSHI SUNDARARAJAN ENGINEERING COL 179 CHEIMAI-500 020

ABOUT THE CONFERENCE

The 2nd International Conference on Information Systems and Software Engineering (ICISSE'18) was organized by the Department of Computer Science and Engineering in association with Computer Society of India (MSEC -CSI Students chapter) from 16/03/2018 to 17/03/2018 at Meenakshi Sundararajan Engineering College. This Conference provided a platform for the researchers, scientists, software architects, students and industry professionals to share their innovative ideas on diverse topics of information technology and software engineering.

The conference overwhelmed with many participants from various colleges, universities and industries. The conference was organized with 4 sessions, commenced with an inauguration and was followed by 3 technical sessions, each with one keynote address and paper presentations. Each technical session had 28 papers which were presented by authors from s colleges and universities. Four Keynote Speakers addressed the gathering on various

- Artificial Intelligence
- Soft Computing
- Mobile Application Development
- IOT
- Wired/Wireless Networks

- · Pattern Recognition
- . Distributed Intelligent System

High Performance Computing

- Management Information System

Abstract :

The keynote speech was on the practical experience and research in the field of Cyber Security. The topics like application security, information security, disaster recovery and botnet were covered.

Day 1 & Session 2: 16/03/2018 AN

Keynote Speech:

Dr. D. Thenmozhi, Associate Professor, Department of CSE, SSN College of Engineering, Chennai.

Abstract:

The keynote speech was on Natural Language Processing (NLP) which is a way for computers to analyze, understand, and derive meaning from human language in a smart and useful way. The topics covered were Forms of Natural Language, Components of NLP, morphological analysis, syntactic analysis, semantic analysis, discourse analysis and deep planning.

Technical Presentation

The technical presentation was chaired by Dr. D. Thenmozhi, Associate Professor, Department of CSE, SSN College of Engineering, Chennai, Dr. S. Sumathi, Associate Professor, Department of Information Technology, St.Joseph's College of Engineering, Chennai and Dr. R. Priyatharshini, Associate Professor, Department of Computer Science and Engineering, Easwari Engineering College, Chennai.

The session had 9 techical presentations, participants from various colleges and universities.

Day 2 & Session 3: 17/03/2018 FN

Keynote Speech:

Dr. L. Bhagyalakshmi, Professor, Department of ECE, Rajalakshmi Engineering College, Chennai.

Abstract:

The keynote speech was on 5G Communication which is the 5th Generation Mobile technology and is a new revolution in mobile market and the latest trend in communication technology.

CSI SEMINAR SUMMARY

GUEST LECTURE REPORT

III Year / VI Semester (2015-2019)

A guest lecture was organized by the CSE department, on 19th January, 2018, in the department lab. The speaker, Mr. Ramesh Krishnan, currently teaching and pursuing a Ph.D. in Boston University, addressed III year students on the various facets involved in pursuing higher education both in India, and abroad.

ONEMNAI-500 624

The session started off with Mr. Krishnan sharing the path he took, pursuing an integrated M.S. / Ph.D. program in the Theory of Computer Science, to shape his present career in academia. In this manner, he educated students about the real life requirements and challenges faced in pursuit of higher studies. This was followed by a lengthy Q&A with the students.

This helped clear many doubts that students had, with information being imparted regarding areas ranging from visas, scholarships, integrated programs, project selection, hot research domains, internships and so on. Some students were also given targeted advice on how to plan their degrees,

based on the careers they were inclined to pursue during/after their course of study.

Nuances of the exams and requirements both in India and abroad were also covered. All in all, it proved to be a highly informative session, and students expressed a wish that similar such sessions would be conducted in the future.

We would like to thank the management, department and staff for providing us with this opportunity to have a hands-on interactive experience, that we may make informed decisions in pursuit of our respective careers after the completion of our baccalaureate degrees.

CSI SEMINAR SUMMARY

SEMINAR REPORT

IV Year / IV Semester (2014 - 2018)

A workshop was conducted for the students of final year CSE on 20th January 2018 about the origin and benefits of Yoga. Mr Ekambaram and Mr Siva spoke to the students about the need for intuitional education and Yoga. In this current generation, technology has made lives easier but has lowered peace of mind. Yoga is a technique to learn more about our body and mind and gain control

over them.

Mr Ekambaram enlightened the students about life particles in our body and how they need to be boosted. The students also learnt that Yoga is not only about exercise, it is about how the body and mind are in sync for one's well being. The session was interactive and students were asked questions about what challenges they face and how to overcome them. This was followed by a

V. Smdi

21

practice session, where the instructors taught students how to practice the mudras and asanas. The students learnt the chin mudra, vajra asana and the Ashwini mudra.

Mr Ekambaram told the students to practice the asanas daily in the morning and evening. The students were taught how to do the asanas correctly and coordinate it with breathing. The benefits and impact of each asana was conveyed to the students. After the practice session, the students were given certificates and booklets about the asanas.`

CSI SEMINAR SUMMARY

IV Year /VIII Semester

The Department of Computer Science and Engineering, Meenakshi Sundararajan Engineering College had organized a guest lecture on Engineers as Managers for the students of CSE IV on 27 January' 2018.

felicitated Mr. Raj Vasanthan for the Guest Lecture. Mr. K. Harrish, School and Speaker and the topic of the lecture to the students.

In his lecture Mr. Raj Vasanthan discussed the Transformation of Engineers to Great Leaders. He also introduced the participants to many exclusive examples and challenges in the industry at large with reference to different laws. He explained the principles to be followed, providing a strong foundation for becoming an effective technology leader – that is, one who is able lead a team, implement change, and consistently achieve results.

V. Smd

2/

PRINCIPAL

MEENAKSHI SUNDARARAIAN ENGINEERING COL 363, ARCOT ROAD, KODAMBAKKAM. CNEMMAI-600 024

He shared his own experiences how and why the engineers can no longer just rely on the old formula that sustained innovation and growth for decades: a mix of top-down strategies, expensive R&D projects and rigid, highly structured innovation processes.

MEENAKSHI SUNDARARAJAN ENGINEERING COLLEGE DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING CSI GUEST LECTURE SUMMARY

Class : II

Date : 30 - 01 - 2018

Total no. of Students Attended : 63

THEME : SEMINAR ON FUTURE EDUCATION

SESSION DETAIL

Time : 12.10 - 02.10 pm

Propic : HIGHER STUDIES SCOPE

Resource Person : PRASID SAIKANTH

summary of the session: It was quite informative session we went through to how to learn on coding techniques. It was indeed an amazing session inject.

Feedback from the Students

Very angul servion, gotan insignt about studying in Abroad and challenges associated with it:

2. NITHYA:

Eye opening session, interactive one coding tips was given briefly.

Details of the Resource Person :

Name

: PRASIDH SRIKANTH. B.E. M.S. COMPUTER SCIENCE Qualification

: S/W ENGINEER. Designation

DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING

CSI SEMINAR SUMMARY

III Year/ IV Year VI/ VIII Semester

(2015 - 2019 and 2014-2018 Batch)

A seminar was organized by the CSE department, on 1st February, 2018, in the department lab. The speaker, Mr.Prasidh, currently working as Project Manager in Microsoft Corporation, United States, previously worked as Software Developer in the same company.

He addressed the III year and IV year students on the various facets involved in pursuing higher education both in abroad and also the challenges faced while working in a core company like Microsoft. The session started off with Mr.Prasidh sharing the path he took, pursuing a Bachelor's degree in Computer Science at Meenakshi Sundararajan Engineering College and Master's degree in Computer Science at Stony Brook University, Newyork. In this manner, he educated students about the real life requirements and challenges faced in pursuit of higher studies.

V. Smdi

He clearly differentiated the pros of pursuing a master's degree immediately after completing Under Graduation and pursuing a master's degree after gaining some work experience. This was followed by a Brainstorming session where the students were asked to solve few technical problems. He helped students solve the problems in company's point of view. He educated the students about core company's requirements and expectations during interviews. He taught the students how to be team fit, culture fit, flexible and think out of box. This was then followed by a lengthy Q&A session with the students.

This helped clear many doubts that the students had, with information regarding degree selection, project selection, hot research domains, internships and letters of recommendation and so on. Some students were also given targeted advice on how to prepare for interviews by core companies like Google, Microsoft and so on. Nuances of the exams and requirements both in India and abroad were also covered. All in all, it proved to be a highly informative and interactive session, students got clarity about pursuing master's degree in abroad and working in core companies.

We would like to thank the management, department and staff for providing us with this opportunity to have a hands-on interactive experience, that we may make informed decisions in pursuit of our respective careers after the completion of our baccalaureate degrees.

V. Smd

Sure Prasidh, I'll let u know tomorrow.

[Quoted text hidden]

Sat, Jan 27, 2018 at 3:07 PM

Hi Prasidh,

You can come on Tuesday (30.1.2018) and address the II year students. Timing 12.10 to 2.10 PM. Hope it is convenient.

Regards.

Sandhya

Dr. M.K.Sandhya M.E., Ph.D Associate Professor, Department of Computer Science & Engineering, Meenakshi Sundararajan Engineering College, Chennai - 600024

Sat, Jan 27, 2018 at 5:43 PM

Sure mam. That's nice to hear. I am also interested to speak with the 3rd and 4th years if they have some time.

Best.

Prasidh

Sandhya Kumar <mksans@gmail.com> To: Prasidh <prasidh09@gmail.com>

Sat, Jan 27, 2018 at 6:40 PM

Final years will be available only on Thursday friday saturday. I'll ask hod for interaction with third years because they are busy with placement training.

Hoping to see you on Tuesday.

SEMINAR COORDINATOR(S)

DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING

CSI SEMINAR SUMMARY

III YEAR V SEMESTER (2015-2019)

On 8th July 2017, a seminar was organized by CSE department, for students of years II, III and IV in MSEC. The seminar was conducted by Mr. Mervyn Rajesh (Associate Manager-Business Development), Mrs. Lakshmi (Quant) and Mr. Munawar Shareif, of Manya, a coaching institute affiliated to the Princeton Review. The institute offers face to face preparation courses and services, tutoring, and even resources for admissions, online courses and books for exams ranging from GRE and GMAT to IELTS and MCAT.

Shareif and Mr. Rajesh provided an introduction to the seminar matter by ascertaining students' aspirations after the completion of their baccalaureate degree, and their knowledge on the exams, tests and courses available to them, through a series of questions. This was followed by a highly interactive session, led by Mrs. Lakshmi, wherein students were asked to solve sample questions, given tips on how to build their application profiles, and presented with a plethora of information about the GRE, IELTS and TOEFL examinations required for application.

V. Smdi

2/

ıtly applying

. The session

rounded off with a question answer session. All in all, it proved to be an intersting and invigorating session for the students, and introduced them to the nuances of the processes involved in applying for higher studies, that they may use this information gained to successfully attempt and clear the testing and admissions processes entailed in pursuit of a post graduate degree in foreign countries.

Summary of the Session

An interactive and informative Session by Mr. M.S Srittali, about Swift Language.

It felt very good to be introduced to a new coding language. The swift language. The brief was very good and informative as we were exposed to a new language, an easy one .

It was really nice to get acquainted with the Swift language. Indeed, it seems to be quite easy and swift to leaver. This haturday afternoon was quite familful owing to the

future Programmors these days need knowledge about Leveloping softwares and programming Languages. Your seminal endiched our Knowledge and helped us to know the Language

CSI SEMINAR SUMMARY

H YEAR III SEMESTER (2016-2020)

A seminar was held on 22nd July 2017 at the seminar hall of CSE. It was organized by the IInd year (2016 – 2020 Batch) CSE Department students on the topic of SWIFT language. The topic was taken by Mr Srihari, software engineer, Zoho. It was indeed a useful and informative seminar session being conducted by Mr Srihari on the topic. He brought about more of practical implementation of the language in the real day of life.

Swift is a general purpose, multi paradigm, compiled programming language developed by Apple Inc for IOS, Macos, Watchos, Tvos and Linux. It is an protocol oriented and object oriented block structured language. It was designed by Chris Lattner. It is simply described as Objective-C without the C. It added many new features to file handling, optional and chaining; value types; protocol oriented; libraries, runtime and development; memory management; debugging and performance concepts. It is more similar to C. It implements generic programming. It is a open source language so it is easily Ported on the web.

gh / h

The seminar session was held with the practical implementation of this shift language by knowing the commands and syntax used in this language and the way of writing programs with this new type of language. Doubts were made clear and the session was very interactive. Shift Language is considered to be more simple and codes used are very easy and simple to understand. So it is one among the booming languages preferred when compared to the other languages like C, C++, Java. The seminar ended with a nice informative quote about the Shift Language.

CSI SEMINAR SUMMARY

IV YEAR VII SEMESTER (2014-2018)

On August 02nd, 2017, a seminar was organized by CSE department, for final year students in the CSE department seminar hall(MSEC). The seminar was conducted by Dr.P.S.Manjula, Assistant Professor, Department of Management studies, University of Madras. She took a seminar on Data Analytics, a very informative session.

She started the session with the focus on Data analysis as a process for obtaining raw data and converting it into information useful for decision-making by users. Data is collected and analysed to answer questions, test hypotheses or disprove theories.

She explained that Data analysis has multiple facets and approaches, encompassing diverse techniques under a variety of names, in different business, science, and social science domains. She clearly gave out the explanation of Data mining, a particular data analysis technique that focuses on modelling and knowledge discovery for predictive rather than purely descriptive purposes, while business intelligence covers data analysis that relies heavily on aggregation, focusing on business information.

PRINCIPAL
MEENAKSHI SUNDARARAJAN ENGINEERING COL
363, ARCOT ROAD, KODAMBAKKAM,
CNEMMAI-600 024

Also she gave out the statistical applications of data analysis and told that it can be divided into descriptive statistics, exploratory data analysis (EDA), and confirmatory data analysis (CDA) where EDA focuses on discovering new features in the data and CDA on confirming or falsifying existing hypotheses and Predictive analytics focuses on application of statistical models for predictive forecasting or classification, while text analytics applies statistical, linguistic, and structural techniques to extract and classify information from textual sources, a species of unstructured data. The session was interactive, explanatory and good. The session helped to learn about various Data Analytics tools and the use of Analytics to mine the data.

CSI SEMINAR SUMMARY

II YEAR III SEMESTER (2016-2020)

&

III YEAR V SEMESTER (2015 - 2019)

A yoga session was conducted for the students of computer science department on 7th august, 2017. With growing competition in every field, health has become one of the integral issues among the people these days. It is highly essential to balance a good health with daily hectic routine Yoga helps to manage stress and anxiety. It is one of the most recognized ways for enhancing our body and mind state.

The benefits of practising yoga for leading a healthy lifestyle was explained. An introduction to the kundalini yoga was given. In Kundalini yoga, practitioners use breathing exercises, physical postures, chanting and meditation to unlock energy.

Few postures were taught orally. Yoga mudras to get relief from back pain, to stay energised and to improve concentration was demonstrated. The art of practicing yoga for controlling an individual's mind, body and soul was described in detail.

The details of doing a certificate course in yoga like the time period of the course, syllabus, fee structure was explained.

Thus the key to lead life in a calm manner and in the right way was detailed. This created an awareness among the students and it will surely help the students to lead their life in a better way.

WORKSHOP II/III YEAR IV/VI SEMESTER (2015-2019)

Technology opens up new horizons and pathways in our minds and lives to innovate, experiment, connect and excel; but at what price? A workshop on 'Cyber Security' was held on 27th and 28th December, 2017. This was conducted by spokespersons from Internettechies Solutions Pvt. Ltd. (a cyber security company). Students of CSE II & III year attended a seminar, and practical session regarding cyber security nuances.

The seminar was conducted jointly for students of both years, on 27th December. The speaker was Dr. Harish Ramani, Founder & CTO, Internettechies Solutions Pvt. Ltd.. It was well organized, informative and balanced, educating students about cyber security basics, including the need for secure coding, and vulnerability classification.

V Smd

Students were educated in a clear and concise manner, with relatable real-life parallels in technology usage (by mention of streaming platforms, such as torrent). At the end of the session, the floor was thrown open for questions.

V. Indi

94

The practical session, hosted by Mr. Vignesh, Information Security Analyst, Internettechies Solutions Pvt. Ltd., was conducted on 27th & 28th December for II & III year students respectively. The session aimed at educating students in the basics of ethical hacking. The session was highly informative, and helped students analyze and manage security loopholes, from professional viewpoints, given that they were encouraged to use their existing knowledge base to plan an 'attack'. Students were also familiarized with some basic tools used in information gathering and made to test these on the lab network and on dummy sites.

Students were given information regarding certification courses offered by the company, and the scope of cyber security in the IT industry, from fields like network technologies, to administration and the hot sphere of digital forensics. The event succeeded in highlighting a

V Smd

04

basis for current security technologies used by IT industries worldwide.

We would like to thank our principal, our HOD and our teachers who gave us this valuable opportunity to learn and enhance our technical knowledge.

CSI SEMINAR SUMMARY

Class

CSE - ITT YR & ITYR

Date

: 23/12/17

Total no. of Students Attended : 126

: Computer Networks

Resource Person

: Mr. C. Vig nesh, Mr. Bharath Kumar N., Mazenet Solns (P)

Summary of the Session

A session was conducted to introduce students to the nuances of computer networks, their characteristics & supporting protocols, and spank an interest in taking CISCO certification courses on the same.

Feedback from the Students

It was an extremely informative sussion, and Students were extremely thankful that such an initiative was taken by the dept., to expose them to courses available, that they might improve their technical skills.

CSI SEMINAR SUMMARY

SEMINAR REPORT

II Year / IV Semester (2016 - 2020)

III Year / VI Semester (2015-2019)

Technology opens up new horizons and pathways in our minds and lives to innovate, experiment connect and excel. A seminar on 'Introduction to Networks' was held on 23rd December, 2017. This was conducted by spokespersons with over a decade and a half of experience, from Mazenet Solutions (P) Ltd. corporate training company), Mr. C. Vignesh and Mr. N. Bharath Kumar. Students of CSE II & III ye were exposed to a refresher talk on of networks related topics

The presentation was well organized, informative and balanced, educating students about network basics, including IP addressing and protocols. Students were taught the nuances in a clear and concerns

V. Smdi

manner, with relatable real-life parallels in technology usage (by mention of social media platforms). At the end of the session, the floor was thrown open for questions.

Students were given information regarding the CCNA certification courses in networking, ethics hacking and cyber security offered by the institute, as well as jobs available in the scope of networ technologies, administration and security. The event succeeded in highlighting a basis for current networ technologies used by IT industries worldwide.

V. Smdi

We would like to thank our **principal**, our **HOD** and our **teachers** who gave us this valuable opportunity learn and enhance our technical knowledge.

MEENAKSHI SUNDARARAJAN ENGINEERING COLLEGE DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING ISTE SEMINAR REPORT

The seminar was conducted to create awareness about the TN LMCTS APP on 22/7/2017. The Legal Metrology Complaint Tracking System (LMCTS) enables the Labour Department of Tamil Nadu to enforce the Legal Metrology Act 2009, effectively in the State. LMCTS includes mobile-based and web-based applications which enable:

- Submission of Metrology-related Grievances (related to Weights and Measures, MRP, Packaged Commodity regulations, etc.) by Citizens through different platforms and delivery channels.
- Direct interaction between the Citizens and the Staff of the Department from anywhere, without personal contact.
- Resolution of such grievances on time by the Department.
 Online / SMS communication between registered mobile numbers of Citizens and the Department.

The LMCTS - App for the benefit of consumers to make complaints regarding malpractices indulged in by shopkeepers and manufacturers of food and other consumer items at an awareness function organized here.

The LMCTS - App, which could be downloaded in Android phones consumers can register their complaints regarding weight anomalies, over pricing, lack of manufacturers details. The labour department officials would take immediate action upon the complaint thus received from the public.

Deputy Inspector of Labours Mr. T. Pari said that the app was launched to lodge complaint. He said that after downloading the app, consumers had to give their mobile number, email id, residential address and other details for registration. Later, a one time password would be sent to the registered mobile number after which the consumer can register the complaints.

V. Smdi

Consumers can take photographs or video of the commodity and the shop and register their complaints through the app. The app also helps the consumers track their complaint status and also interact with officials directly. Consumers will receive an acknowledgement after registration of the complaint.

Talk by: Mr. C.S. Venkat Raman, CEO & Director,

Prestolite Electric India Pvt. Ltd.

Ethics are a foundation of a good company, and while they can be fixed, the best companies begin with a solid ethical footing. On the 22nd of September, 2017 the students were addressed by Mr. C.S. Venkat Raman, CEO and Director of Prestolite Electric India Pvt. Ltd. He focused on the essence of entrepreneurial ethics that is required to build entrepreneurs, whose activities grow wealth in any society. He also added that entrepreneurial ethics are sound business principles to be employed by entrepreneurs to be successful. He spoke about the ethics that should be followed such as to respect self and people around us, to honor strong performers, to focus on customers, to be result oriented and so on. The speech highlighted the important points on Business ethics which the students found very beneficial and gave an idea of how to form an organization's ethics.

NSIC Technical Services Pvt. Ltd.

Optimism is the faith that leads to achievement. True to these words, E-Cell has tried to give the students the best possible motivation in the form of speakers who are well placed and accomplished in their respective fields. On the 09th of December 2017, the students were addressed by Mr. T. Vallinayagam, who is a part of the NSIC Technical Services Pvt. Ltd., He spoke about Entrepreneurship and its types and the types of Organizations. He gave valuable insights to the Governmental and Non-Governmental Organizations and the various intricacies involved in setting up a start-up venture. He also spoke about how important Inter-disciplinary studies were in gaining worldly knowledge and getting a better grasp on the market space.

CAREER GUIDANCE PROGRAM

Topic: Educational opportunities in New Zealand and the scope for new

ventures

Inaugurated on 27th December 2017

Chief Guest: Dr.Aruna Shekar Senior lecturer

School of engineering and Advanced technology

On the 27th of December 2017, Dr. Aruna Shekar, Senior Lecturer from the School of Engineering and Advanced Technology gave a talk on the Educational opportunities in New Zealand and the scope for new ventures there. She had given brief points about entry requirements for many higher education programs in New Zealand. New Zealand's higher education programs are well known for their quality of teaching and advanced facilities. Our students came to know about the various facilities available in the educational institution in New Zealand. Her speech motivated the students to reach high and set high goals. Our students are engulfed with more interesting news about the educational opportunities .Overall she inspired to students to aim big and meticulously pursue their dreams.

APPROVED BY AICTE AND AFFILIATED TO ANNA UNIVERSITY DEPARTMENT OF CIVIL ENGINEERING

CIRCULAR

Date: 18/09/2017

It is proposed to conduct Guest Lecture on 20/09/2017 for II, III and IV year (CIVIL)

Students. So, all the students are advised to attend the Guest Lecture.

1. Title

: "Water & Wastewater Technologies".

2. Speaker: Dr.K.Sudharshan

3. Date:

20/09/2017 (Wednesday)

4. Time:

10.30AM to 12.00 PM

5. Venue:

Seminar Hall

HOD / CIVIL

APPROVED BY AICTE AND AFFILIATED TO ANNA UNIVERSITY DEPARTMENT OF CIVIL ENGINEERING

CIRCULAR

Date: 25.06.2018

It is proposed to conduct Guest Lecture on 26/06/18 for II, III and IV year (CIVIL) Students.

So, all the students are advised to attend the Guest Lecture.

1. Title

"Building Application of multi criteria analysis to

select the best highway alignment".

2. Speaker:

Mr. Bharath Kumar Shanmuga Sundaram

3. Date:

03/02/2018 (Tuesday)

4. Time:

10.30AM to 12.00 PM

5. Venue:

Seminar Hall

HOD/CIVIL

NATIONAL CONFERENCE ON TRENDS AND TRANSMOGRIFICATION IN STRUCTURAL ENGINEERING

MARCH 3rd 2018

Organized by Department of Civil Engineering In Collaboration with ICI

MEENAKSHI SUNDARARAJAN ENGINEERING COLLEGE

363, Arcot Road, Kodambakkam, Chennai - 600 024 Mobile: 9500142633, 7299926910 E-mail: msec2018civil@gmail.com

About the Conference

With expeditious manifestations in the arena of Structural Engineering, a platform to amalgamate the masterminds that powers research and developments is an absolute prerequisite. National Conference on Trends and Transmogrification in Structural Engineering has been moulded to serve such an ambitious purpose of integrating the ideologies and skillsets of the eminent scholars with the budding generation of researchers. The conference is headed towards exploring the recent inclinations in Structural Engineering with the key spheres concentrated at Composites, Retrofitting, Disaster Resistant Design, Innovative Structural Design and many more. The conference is intended to sow the seeds of innovation and also to emphasize on the current trends in the sector of Structural Analysis and Design.

Paper Submission Guidelines

Authors are requested to send the soft copy of the technical paper in Times New Roman font, size 10 in two column format with number of pages not exceeding 10 to the email: msec2018civil@gmail.com. For the reference format visit ncttse18.in.The papers are invited in the following topics

Application of Hydraulic damper systems in steel buildings

Application of Nano technology in Concrete

About the College:

Meenakshi Sundararajan Engineering College (MSEC) established in 2001 by the Indian Institute of Engineering and Technology (IIET) founded by late Prof. K.R.Sundararajan with the vision of becoming a centre of excellence in the field of engineering education. Our Institute offers 6 UG programmes in Civil, CSE, EEE, ECE, Mech, IT and a P.G programme in Construction Engineering and Management. Our Institution aims to provide excellent learning facilities by imparting practical training, knowledge and skills to the youth. The college has signed MoU's with research organizations and industries to promote closer interaction in the areas of technology development, student training, curriculum upgradation and establishment of state-of-art-centers of excellence. The spirit of innovation continues to be the hallmark of our institution. Our two former students have made it to the Forbes '30 under 30' which includes individuals whose innovations have been listed among the top 30 innovations in the world.

About the Department:

The Department of Civil Engineering was started in the year 2002, offering B.E. Civil Engineering. M.E Construction engineering & Management was started in the academic year 2012-13. The department has adequate infrastructure and modern equipments. We have active Industry-Institute partnership. The department has an ICI students chapter and has a strong association with CPWD, PWD, TWAD board, Highway department, SERC, CMRL, Chennai Port Trust, Metro Water, L&T, Utracon Structural Systems, Simplex, Daimler and Langdonseah. Our faculty are invited to give special lectures in engineering colleges, universities and Anna University. Our department also conducts research and design works in the areas of soil testing, material testing, anti-sea erosion measures, sedimentation, hydrographic survey and preparation of reports. Our faculty also conduct training programmes for government institutes like National Water Academy, Pune, Anna Institute of Management and Irrigation Management Training Institute, Trichy.

Keynote Speakers

Dr. Arvee Sujil Johnson, Professor, Department of Civil Engineering, College of Engineering, Trivandrum, Kerala

Dr. R.Ayothiraman, Professor, Geotechnical Engineering, Department of Civil Engineering, IIT Delhi

Dr. V.Balakumar, Senior Consultant, Simplex, Chennai.

Dr. K.P.Jaya, Professor and Addl. Director, Center for Research, Anna University, Chennai.

Dr. G.Janardhanan, Associate Professor and Head i.c Centre for Environment Management, NITTTR, Chennai.

Er. Kamalakannan.K.K. Managing Director, Utracon Structural Systems Pvt Ltd. Chennai,

Er. J.S. Padmanabhan, Structural Consultant, Jayam Consultancy Private Limited, Chennai.

Dr. S. Poongothai, Professor, Department of Civil and Structural Engineering, Annamalai University, Chidambaram

Dr. K. Premalatha, Professor and Head, Division of Soil Mechanics and Foundation Engineering, CEG, Chennai

Er. P.Sachithanantham, HOD, Department of Civil Engineering, Sri Lakshmi Ammal Engineering College, Thiruvancheri.

Dr. P.Saiprasad, Chief Scientific Officer, TNPCB, Chennai.

Technical Committee

Er. DelliBabu Sekar, Structural Consultant, Chennai.

Dr. H.Jane Helena, Associate Professor, Division of Structural Engineering, CEG, Anna University, Chennai.

Dr. Madasamy Arockiasamy, Department of Civil, Environmental and Geomatics Engineering, FAU College of Engineering, Florida

Dr. R.Panner Selvam, Professor, Ocean Department, IIT Madras.

Er. J. Praskasam, Joint General Manager Tracks, CMRL.

Dr. P.B. Sakthivel, Professor, Department of Civil Engineering, Vel Tech High Tech, Chennai.

Dr. K.P.Sudheer, Professor, Environmental and Water Resources Engineering Division, IIT Madras.

Dr. Thirumalini, Associate Profeesor, Department of Civil Engineering, VIT University, Vellore.

Dr. T. Usha, Scientist F, Integrated Coastal and Marine Area Management Project Directorate (ICMAM), Chennai

Prof. K.Vijaya Bhaskar Raju, Director, Off-Campus, Bengaluru, GU, GITAM University, Hyderabad

Key Dates

Submission of abstract on or before : 12th Feb '18
Intimation of acceptance of abstract : 15th Feb '18
Submission of full paper on or before : 20th Feb '18

Acceptance of full paper and schedule

of the conference to be released : 25th Feb '18

The extended version of high quality research papers will be published in peer reviewed reputed journals.

Registration Details

For encouraging the young students and researchers to present a paper in our conference, we make **free registration**. For the students, researchers, academicians and engineers, those who are willing to attend the conference, registration fees is Rs 200

ONE DAY TECHNICAL SEMINAR CULTURAL HERITAGE AND MONUMENT STRUCTURES - CONSERVATION AND PROTECTION

Jan 18th 2018

ABOUT THE PROGRAMME

The construction Industry today has adopted many changes in design and execution methodologies, keeping in pace with the modern developments. These developments include advances in plant and machinery, computational tools and high speed computers. But we have been left behind with the structures built by our ancestors which today challenges the computational methods. Does it mean that there were no mathematical procedures or analyses in putting up Saraswathy Mahal or the famous Bragadheeswara temple in Tanjore or Naicker Mahal in Madurai and so on? In Europe today employment of archaeologists and experts on fossils during the execution of deep excavations is likely to become mandatory particularly in cities of historical importance. The heritage structures represent our culture and the civic sense like the provisions in Fatepur Sikri in Agra, our own Gingee fort granaries.

This work-shop focuses our attention on the existing scientific methods adopted in excavation of historically important places and the methods adopted in the conservation of such structures. Presently a lot of thrust is given by the government to rehabilitate the existing structures to preserve and we keep it for our future generation. Certainly we hope this workshop fulfill this need and serve the correct technology to our society and also it will enhance our young and dynamic students.

ABOUT THE DEPARTMENT

The department of Civil Engineering was started in the academic year 2002 with an aim of promoting high quality education in the field of Civil Engineering. The academic activities of the department emphasis deep understanding of fundamental principles, development of creative

MEENAKSHI SUNDARARAIAN ENGINEERING COL 363, ARCOT ROAD, KODAMBAKKAM. CNEMNAI-500 024 ability to handle the challenges of civil engineering and the analytical ability to solve the problems which are inter disciplinary in nature.

The department currently offers Bachelor of Engineering (BE) degree program in civil engineering and Masters in Construction Engineering and Management. Industrial visits are arranged for students to gain practical experience. Every year technical symposium WAFES is organized for students to explore the knowledge and interact with other college students. The Civil Engineering Association (CEA) is working effecting from the academic year 2002 to share the information and to help the society.

It has a separate block equipped with all facilities and labs. The department has a ICI (Indian Concrete Institute) students chapter and has a strong association with PWD, Highway Department, TWAD, SERC, CMRL, Chennai Port Trust, Metro Water, L&T, Utracon Structural Systems, and Langdonseah. Civil department conducts various technical seminars, conferences, workshops and faculty development programme at regular intervals apart from academic curriculum to make both students and staffs updated with latest research areas and trends in the civil engineering field.

EVENTS CONDUCTED

Introduction to chief guests was given by Prof.R.Arivazhagan

SESSION 1

First session was "PRINCIPLE OF CONSERVATION" from 9:30 AM – 10:30 AM. Dr.T.Sathyamurthy was the chief guest for this session. He is PRO of R.E.A.C.H foundation, chennai. He gave seminar on process of conservation it was very useful to students and faculty. He explained topics on Mechanical equivalent of heat, Mass—energy equivalence and Quantum theory and then the video show on Uthiramerur kailasanathar temple from 10.30 AM to 11.00 AM.

SESSION 2

Second session was "WHY CHARACTERIZATION STUDY?" from 12:00 AM - 2:30 PM. Dr.Thirumalini, was the chief guest for this session. She is Associate Professor in VIT, Vellore.

She explained topics on Direct and Indirect Characterizations, Characterization Techniques . His seminar gave a wide knowledge on how characterization.

SESSION 3

Third session was "TECHNICAL EVENT PRESENTED BY MSEC-ICI STUDENT CHAPTER" from 2:30-4:00 PM.

SESSION 4

Fourth session was "PRIZE DISTRIBUTION" from 4:00-4:30 PM by Prof.V.S.Sampath. Hod/Civil.

Vote of thanks was given by dean / civil.

DEPT OF CIVIL ENGINEERING ONE DAY TECHNICAL SEMINAR-18.01.2018

AGENDA

INAGURATION

9:00 AM - 9.30 AM

Prayer song by Miss. Ezhil Arasi (II year)

Lighting of kuthVilaku

Flower tribute to the founder Dr.K.R.Sundararajan

Welcome address & introduction to chief guest by Prof.R.Arivazhagan

Inaugural address by Dr.V.Balakumar

Excellence of civil engineering in Ancient Temples by Dr.P.K.Suresh, Principal

SESSION 1

9:30 - 10:30 AM

PRINCIPAL OF CONSERVATION

Dr.T.Sathyamorthy, P.R.O of R.E.A.C.H foundation, Chennai,

10:30 - 11:00 AM Video show on "Uthiramerur Kailasanathar Temple"

LUNCH BREAK -11:00 AM - 12:00 PM

SESSION 2

12:00 PM - 02:30 PM

WHY CHARACTERIZATION STUDY???

Dr. Thirumalini, Associate Professor,

VIT university, Vellore

SESSION 3

2:30 PM - 4.00 PM

TECHNICAL EVENT PRESENTED BY MSEC-ICI STUDENT CHAPTERS

SESSION 4

4:00 PM - 4.30 PM

PRIZE DISTRIBUTION

Prof.V.S.Sampath-HOD/Civil

STUDENTS FEEDBACK

Vote of thanks & Concluding remarks by- Dr.L.Ramajeyam - DEAN/CIVIL
