E- GOVERNANCE IN MSEC

1. ADMINISTRATION

Autolib Software

AutoLib - is completely a web based Library Management Software (LMS), designed and developed and promoted by AutoLib Software Systems, Chennai using latest JAVA Technologies. It can handle lakhs of records more efficiently. AutoLib has many integrated modules to take care all the technical, in-house activities and also provide various services such as cataloguing module - to create databases for various types of documents and also users, Circulation Management System - to monitor all the transactions in a library such as **Issue, Return, renewal, reservation, etc. Serial Control module - to maintain periodical Subscription and Management, Acquisition Module - to procure various resources, Report Management System to generate various reports and statistics.** It is WEB enabled for Intranet and Internet environments, incorporating latest IT/WEB tools and techniques and adheres to many international standards. Besides these, many additional modules are also available to handle all other activities. Email, SMS integration facility is also available to alert users giving information about overdue of the documents borrowed by them and also other transaction details.

Books and student maintenance modules are included in this system which would keep track of the students using the library and also a detailed solution about the books a library contains. In our college, since 2019, More than 2000 members are registered with this Autolib software per year. This computerization of library helps in many instances of its maintenances. It reduces the workload of management as most of the manual work done is reduced.

Seminar Hall Booking Software

This is a Seminar hall management software project. It includes all the features and functions needed to efficiently manage a seminar hall. It includes an administrator account which is used to handle/control all the system functionality. The system keeps track of seminar hall status and advance bookings. The managing staffs in each department can book the seminar hall as per their requirements and check the availability of the seminar hall. The system keeps records of seminar hall bookings along with associated event details and user contacts in a well maintained database. The administrator can easily check the seminar hall bookings and timings in the system GUI. Each department has the username and password to book the seminar hall for their requirement. Through this they can view the available dates of particular seminar hall and also the facilities in the hall like capacity, mic, projector, marker board etc. This provides user-friendly environment while booking the seminar hall it gives suggestion regarding the selection of seminar hall based on the capacity and availability. The concern department head can view the list of the request. The acceptance and rejection can be viewed by the user through that log in.

4. EXAMINATION

Evolution of teaching, learning and assessment methods and study of Teachers and Students perspective on it helped us in evidence based practice. The module of E learning the component of supervised our institute incorporated various techniques of teaching learning during the pandemic situation. As there was no standard protocol in existence to face such a situation, we conducted studies which will help in evidence based practice in order to ensure that our students attain quality education.

GOOGLE CLASSROOM:

- Switch from class to assignment to student in just a few clicks
- Track student progress in your grade book and export scores to your school's student information system (SIS)
- Keep grading consistent and transparent with rubrics displayed alongside student work
- Store frequently used phrases in a customizable comment bank
- Prepare and schedule tasks, assignments, and quizzes across multiple classes
- Give students the ability to adjust accessibility settings so they can learn in the way that works best for them — even in multiple languages
- Keep everyone on track with student to-do and teacher to-review pages, and due dates that automatically appear on student calendars when classwork is created
- Upload coursework documents automatically as templates to give each student their own copy of an assignment when it is created.

311519106104 Uthra.T.K EC8391 Control Systems Engineering

PART-A

① The negative feedback results in better stability in steady state and rejects any disturbance signals. It also has low sensitivity to parameter variations. Hence negative feedback is preferred in control systems.

②

$\Rightarrow 2+3=5$

$\Rightarrow \frac{12}{1+\frac{12 \cdot 1}{4}} = \frac{12}{1+3} = \frac{12}{4} = 3$

-ve feedback

cascade $5 \times 3 = 15$

$gain = \frac{O/P}{I/P} = 15 - 4 = 11 //$

ANNA UNIVERSITY WEB PORTAL

The state-run university maintains the student's records on this self-developed web portal. Similarly, the page carries separate login for institutions and students. For login into the university portal, students need only their register number and date of birth. By logging in, students are greeted with their profile page to know their internal marks, previous semester results, and the latest updates from Anna University, etc. The portal is only for the students of Anna University and its affiliated institutions. However, the known website **coe1.annauniv.edu** is the only web portal available 24* 7 to serve students. **Anna University results** are also updated on this page first. The university maintains proper records for every student regardless of their degree and courses. And this information is available for the institution and also for the students in different logins. Therefore, students can log in with their register number and date of birth, and the Institutions with a username and login password provided by the university. Moreover, the student's academic details are updated periodically by the faculties of the respective departments. Students can check **annauniv results** by logging into the students' login portal. Also, students from different regulations can use this portal to check their academic performance.
