EXCELSIOR ACADEMY

Quench your Quest for Excellence

PROPOSAL

Dear Placement team,

Greetings for the day!!!

After carefully analyzing the current trends in hiring for undergraduate studies, we have carefully designed a programme called **VERBAL AND SOFTSKILLS ENHANCEMENT** to suit the needs of budding professionals which can make them to be highly responsible and competitive individuals with tremendous input from professionals to take up the highly challenging world.

Kindly find the details of the programme:

Duration: 24 Hours

Target Audience: IV Year (All Branches)

Programme name: **VERBAL AND SOFTSKILLS ENHANCEMENT**

Programme Topics: Key concepts of Verbal abilities and soft skills.

(Kindly find the other attachment)

Batch Size: As per the discussion.

Cost Per Student: Rs.30/Hour (Exclusive of Tax)

24 hours Course Structure			
Sections	Topics	No. of Hours	Section Total
Verbal Ability Module	Sentence Correction-Nouns, Pronouns and Articles	1.5	12.0
	Sentence Correction-Verbs, Subject Verb Agreement	1.5	
	Sentence Correction-Adjectives, Adverbs & Conjunctions	1.5	
	Prepositions & Vocabulary building	1.5	
	Synonyms and Antonyms	1.5	
	Reading Comprehension	1.5	
	Paragraph Anagram	1.5	
	Critical Reasoning	1.5	
Soft Skills Module	Lateral thinking & Different Quotients	1.5	12.0
	Presentation skills	1.5	
	Resume writing	1.5	
	Fundamentals of Group discussion	1.5	
	Mock GD	1.5	
	Case study Analysis	1.5	
	Interview Techniques	1.5	
	Mock Interview	1.5	
Grand Total			24.0

Quotation

09th June 2023

Dear Sir,

Sub: Quotation for Web Technology Bootcamp Training Program

Greetings from Simplzone!

In line with the discussion we had with you we have here with detailed the program details along with the cost for conducting the **Web Technology Bootcamp Training Program**.

Please find below the program details.

Program Details

Program Duration: 9 Days / 27 Hours (Can be customized based on college requirements)

Target Audience: BE students - (All Specializations)

Program type: Web Technology Bootcamp - Frontend & Backend

Fee per Student: Rs. 30.00 per student per hour (exclusive of taxes)

Batch Size: 60 students per batch

Training Objective:

1. Fundamentals

Networks, Web, Protocols, HTML, CSS, Bootstrap, JS and DB

2. Technologies

Frontend/Backend Frameworks & Libraries, Control System, Deployment and Database

3. Hands-on Experience

Real-time activities

QUOTATION

Sir/Madam,

Sub: Quotation for **Aptitude, Programming** training program

Greetings from TRAIN AND PLACE

In line with the discussion we had with you we have here with detailed the program details along with the cost for conducting the **Aptitude Competency Development** training program. Please find below the program details.

Program Duration:	100 Hours (<i>Can be customized based on college requirement</i>)
Target Audience:	BE / B.Tech Students
Program Type:	Aptitude Competency Development
Fee per Student:	Rs.30.00 per student per hour (exclusive of taxes)
Batch Size:	60 students per batch

PRINCIPAL
MEENAKSHI SUNDARARAJAN ENGINEERING COLLEGE
363, ARCOT ROAD, KODAMBAKKAM
CHENNAI-600 024

Topics:

Arithmetic:

- Profit and Loss
- Percentage
- Seating Arrangements
- Average and Partnership
- Time, Speed and Distance
- Time and Work
- Ratio and Proportion
- Direction
- Blood Relation
- Number Systems
- Coding and Decoding
- Puzzles
- Odd man out
- Train, Boat and Stream
- Probability
- Permutation and Combination
- Mixture and Alligation
- Simple and Compound Interest
- Data Interpretation
- Sylogism

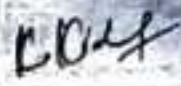

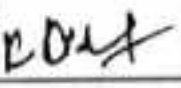

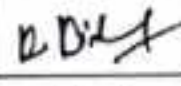

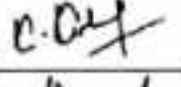

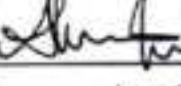

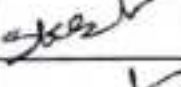

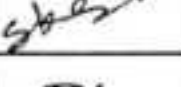

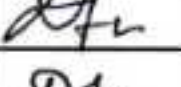

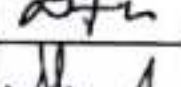

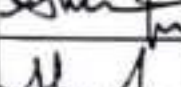

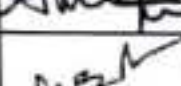

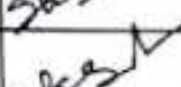

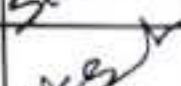

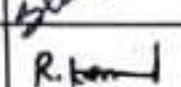

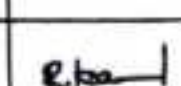

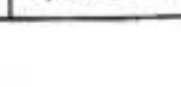

C Programming:

- Scratch
- Fundamentals
- Data Types
- Operators
- Arrays
- Strings
- Structure & Union
- Pointers
- Functions
- Dynamic Memory Allocation
- OOPs Concepts
- Example Programs
- MCQs & Pseudo code Snippets
- Algorithms

QUOTATION

08.04.2023

Dear Sir / Madam,

Sub: Quotation for a FOUR DAYS Training Program on "Industry Oriented Technical Training for Civil Engineers"

Greetings from SPL Infrastructure Pvt Ltd.

With regards to our telephonic conversation and the subsequent request placed for conducting a training program for the THIRD YEAR B.E. CIVIL ENGINEERING students at your campus. we have enlisted the details of the program and its proposed cost.

Duration: 4 Days

Training participants: III Year B.E Civil Engineering students

Nature of training: Industry Oriented Technical Training – on STAAD PRO software and Total Station

Cost per student: Rs. 1500 per student (exclusive of 18% GST)

Batch Size: 26 students

Training Objective:

- ✓ To get exposed in the Structural Design of a Building using STADD PRO
- ✓ To understand the type of structure, windows used and various tools and cursors available in the software.
- ✓ Familiarize model generation and assigning property, supports etc.,
- ✓ Demonstration on static analysis with loads, design and output.
- ✓ Hands on practice in software to every candidate with individual attention will be dealt.
- ✓ To create exposure among the fundamental operations involved in handling AUTO LEVEL and TOTAL STATION).
- ✓ To carry out levelling, building marking and setting out perpendiculars.
- ✓ To measure areas and volumes using Total station.
- ✓ To prepare themselves in acquiring good soft skills and professional development in their life.

SPL INFRASTRUCTURE PVT LTD

TRAINING SCHEDULE - THIRD YEAR CIVIL ENGINEERING

DATE	DAY	FN (10:00 AM to 12:30 PM)	AM (01:30 PM to 04:00 PM)
11-04-2023	TUESDAY	INTRODUCTION to Staad Pro and its features - Types of Structure - Window of Staad Pro	Getting started with Staad Pro - Tools used - Page control modes - Placements in Staad Pro
12-04-2023	WEDNESDAY	Model Generation Wizard - Assigning property and supports	Hands on Practice
13-04-2023	THURSDAY	Demonstration on Assigning loads - Static & Dynamic Load, Analysis - Design - Output	Hands on Practice
15-04-2023	SATURDAY	Functions of TOTAL STATION and its Operations - Distance Measurement - Co ordinate Measurement - Elevation Measurement - Batch I	Demonstration on AUTO LEVEL and recording of Reduced Levels for different objects in the field using Field Level Sheet - Batch I
		Demonstration on AUTO LEVEL and recording of Reduced Levels for different objects in the field using Field Level Sheet - Batch II	Functions of TOTAL STATION and its Operations - Distance Measurement - Co ordinate Measurement - Elevation Measurement - Batch II

INAUGURATION OF THE TRAINING PROGRAM

At the outset, **Mr. S. Siva Chandran, Deputy Manager T&D, SPL Infrastructure Pvt. Ltd.** Presented an overview of the organization, the past and present projects and their details were elaborated. Further various departments in the company were introduced to the students. The placement and upskilling activities of the training and development was presented in a nutshell.

Further, **Mr. S. Rajiv Palaniappan Manager, T&D, SPL Infrastructure Pvt. Ltd.** He discussed the nature and purpose of the training with the students and briefly listed out the schedule of training for the four days to be followed. The topics to be discussed, the resource people and their industrial skill and experience level was shared among the students to create an interest towards the training program.

Training Program - Inaugural

DAY	DATE	SESSION
1	11.04.23	FN

TITLE OF THE SESSION:

↓ INTRODUCTION to STAAD PRO Software

PRESENTED BY: Mr. Padmanabhan, M.E., (Structures) and Mr. Elangovan, M.E., (Structures) - Structural Consultant & Contractor

OBJECTIVES:

- To introduce basic concepts of analysing the structure and loads on the structures.
- To provide a prelude on the unfolding of the software itself and its tools.

CONTENT PRESENTED:

- ✓ Introduction on IS codes used, building plan and structural drawing.
- ✓ An overview of the software and its history was presented with clarity.
- ✓ Students were given a brief introduction about the software application which helps the structural engineers to automate their tasks and remove the tedious and time-consuming methodologies.
- ✓ The Structure of the Staad Pro was explained to students, where they can understand that any type of structure can be designed using Staad Pro via frame and finite elements.
- ✓ Various types of structures such as a truss, plane, space and floor were elaborated in detail.
- ✓ The "Windows of Staad Pro" was explained with a demo on how to use the main window, page control, menu bar, tool bar and data area.
- ✓ Various tools used during an analysis and design were illustrated such as options to see different views of the structure, rotation of the structure, zoom options, whole structure and 3D rendering.
- ✓ Unlike 2D software there is no single cursor, there are different cursors for different activities such as node cursor, beam cursor, plate cursor, surface cursor, solid cursor, and geometry cursor.
- ✓ "Page controls" are operated in various modes, both the modelling and post processing mode were elaborated graphically.

DAY

DATE

SESSION

1

11.4.23

AN

CONTENT PRESENTED:

- The flowchart of the Staad Pro was presented with explanations on the following
 - Model generation and analysis
 - Input geometry and properties
 - Input specs, constant and supports
 - Input loading system
 - Specific analysis type
 - Run analysis and view, verify results
 - Design and check
- Students actively engaged in practice session, based on the days training.

OUTCOME OF THE DAY:

- Students would have understood the history and evolution of the software and its significance in replacing manual design and analysis of a structure.
- Students were familiarised with the tools and options on the Staad Pro window.
- Practice of the usage of basic tools would have created interest in the analysis and design software.

Staad Pro Training & Practice Session – Day 1

PRINCIPAL
MEENAKSHI SUNDARAJAN ENGINEERING COL
363, ARCOT ROAD, KODAMBAKKAM
CHENNAI-600 024

DAY	DATE	SESSION
2	12.4.23	FN & AN

TITLE OF THE SESSION:

- ↓ Demonstration on model generation wizard
- ↓ Assigning property and supports

PRESENTED BY: Mr. Padmanabhan, M.E., (Structures) and Mr. Elangovan, M.E., (Structures) - Structural Consultant & Contractor

OBJECTIVES:

- To make the students understand the features of the model generation wizard.
- To help them create a model, assign property, supports, loads, carry out analysis and subsequently design the structure.

CONTENT PRESENTED:

- ✓ Various methods of model generation such as snap mode method, coordinate method, and copy paste method were described in depth.
- ✓ A structure of any geometry can be created by the students using the methods of model generation.
- ✓ The command wizard was introduced to the students which has a library with structures like frames, trusses, that can be merged with Staad Pro Model.
- ✓ A detailed explanation was given on the Y-direction and Z-direction entry in case of the assigning property.
- ✓ Students were explained about assignment method, beta angle and use cursor to assign for inputs on properties on concrete.
- ✓ Overall assigning property demonstration includes ways and means of providing width, depth, and material properties for the modelled members.
- ✓ After assigning property, the logical step goes to the assigning supports, before the illustration students were taught about different support conditions like fixed, pinned and roller support.

(Handwritten Signature)

PRINCIPAL

MEENAKSHI SUNDARAJAN ENGINEERING COLLEGE
283, ARCOT ROAD, KODAMBAKKAM
CHENNAI-600 024

- ✓ The options for roller and pinned support were illustrated to students by releasing the moments.
- ✓ Further an outline was given on the assigning of loads, analysis, and design.
- ✓ Students were given hands on training in the afternoon session

OUTCOME OF THE DAY:

- Students will have a clarity on model generation wizard and the commands used for frames and trusses.
- Students can create geometry for any structure
- Students can assign width, depth, and material properties
- Students will be able to assign various types of supports for the structures.

Staad Pro Training & Practice Session – Day 2

EGE

DAY	DATE	SESSION
3	13.4.23	FN & AN

TITLE OF THE DAY:

- ↓ Assigning the loads, supports, analysis of structure and design
- ↓ Static and Dynamic load analysis

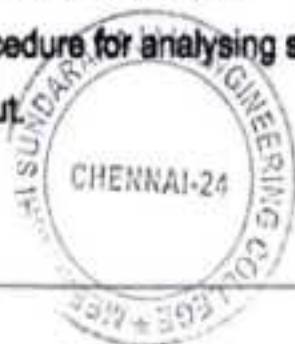

PRESENTED BY: Mr. Padmanabhan, M.E., (Structures) and Mr. Elangovan, M.E., (Structures) - Structural Consultant & Contractor

OBJECTIVES:

- To make students aware of assigning loads, both static and dynamic loads.
- To completely carryout analysis of structure, design and demonstrate procedure for obtaining the output from the software.

CONTENT PRESENTED:

- ✓ The various loads on the structure taken for analysis and design as per IS code were discussed, Especially the live loads, dead load, and others.
- ✓ General loads explained to students were dead load and live load that comes under the static load
- ✓ Dynamic loads like seismic and wind loads were also elaborated to students for analysing the structure.
- ✓ For dynamic loads the definitions were provided according to codes and standards with various load cases.
- ✓ The load definitions, load case details and load envelopes were elaborated briefly.
- ✓ Students were graphically demonstrated about the reactions, displacements, and deflections of various members from various nodes of the structure.
- ✓ After analysing a structure must be designed to carry loads acting on it and the concept of factor of safety was descried with clarity.
- ✓ Indian codes were listed and explained for both concrete and steel structures.
- ✓ Students were clearly explained the process of designing, analysing the structure of a beam and column and their output.
- ✓ Similarly, the procedure for analysing static and dynamic analysis were also explained to produce the output.

PRINCIPAL
MEENAKSHI SUNDARARAJAN ENGINEERING COLLEGE
363, ARCOT ROAD, KODAMBAKKAM
CHENNAI-600 024

- ✓ Students had extended practice session on the static and dynamic load analysis.

OUTCOME OF THE DAY:

- Students would have a clarity on types of loads on structures, IS codes and international codes.
- Students will be well versed on the basic options of the software tools in the case static and dynamic analysis.
- Overall, the practice sessions benefitted the students to have a clarity in usage of all tools in the window of the Staad Pro software.

TITLE OF THE SESSION:

☛ Demonstration on AUTO LEVEL and its accessories for LEVELS

PRESENTED BY: Mr. Syed Riaz, Survey Manager / Mr. Prince, Senior Surveyor / Mr. Rahimullah, Junior Surveyor / Mr. Booml, Survey Assistant – Survey Team.

OBJECTIVES:

- To provide the basic principles and fundamental operational procedure of auto level.
- To ensure all field survey and levelling techniques in construction of highways are demonstrated to students.

CONTENT PRESENTED:

- ✓ Level and its accessories were demonstrated to two groups of candidates on-site.
- ✓ Levelling practices on-site for establishing permanent and temporary benchmarks were described.
- ✓ Preparation of OGL Sheets before initiating site clearance and its work methodology were discussed in detail.
- ✓ Level sheets were used to practice understanding of back sight (BS), intermediate sight (IS), and fore sight (FS) by doing entries. Practice on sighting, reading and entries for varying levels were done.
- ✓ Fly Levelling Practice near Base Camp was organised group-wise for two batches to understand the change of instrument and its need. Hands-on practise in handling the levelling instrument at the site for various purposes of levelling requirements.
- ✓ Identifying the error and closing the error for any levelling instrument was demonstrated in practice. Precautions and maintenance of the instrument were discussed to avoid mishandling the instrument during site operations.
- ✓ Establishing RL for all the given points with respect to the Temporary Bench Mark provided.

TITLE OF THE SESSION:

- ✚ Demonstration on TOTAL STATION and its accessories for CO ORDINATE MEASUREMENTS.

PRESENTED BY: Mr. Syed Riaz, Survey Manager / Mr. Prince, Senior Surveyor / Mr. Rahimullah, Junior Surveyor / Mr. Boomi, Survey Assistant – Survey Team.

OBJECTIVES:

- To provide the basic principles and fundamental operational procedure of total station.
- To demonstrate all the features and the purpose of each in detail with its application.

CONTENT PRESENTED:

- ✓ Total Station and its accessories were explained to understand the basics of instruments with its purpose.
- ✓ Available TS models with its specifications on varying brand were discussed to explore the trend setting in the industry.
- ✓ The basic operations involved in the use of Total Station with regards to the traverse conducted for establishing reference points for any site exploration work were explained.
- ✓ Demonstration on temporary station adjustments of Total Station were explained and allowed to experience the same.
- ✓ Setting up the Instrument at the Instrument Station for a given ground datum as a Field Practice.
- ✓ Identifying the target as an Object / Prism Pole for recording the distance as HD, SD and VD using MENU LIST.
- ✓ Field survey methods such as Remote Elevation Measurement (REM) and Remote Distance Measurement (RDM)

OUTCOME OF THE SESSION:

- ✓ Students would have understood the basic operations of auto level and total station.
- ✓ Basic concepts of measuring coordinates from the field and establishing points on the field from the drawings.

Respected Madam,

We are extremely thankful to you for accepting to be a judge to evaluate the E-cube event-
Project presentation of our final-year students which was held on 22.09.2023 by the Department
of Electrical and Electronics Engineering.

Your presence for this event has been effective and we once again thank you for your kind
cooperation.

Looking forward for the same in future.

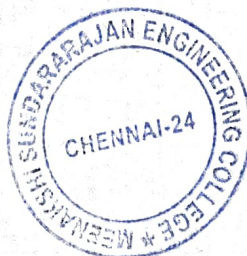

Thanking you.

Circular

Date: 13.09.2023

Our college conducts an interesting program every year, "A week of E³-Enrichment, Enhancement, Empowerment". It mainly aims at improving the abilities of students as confident and able presenters. The E³ dates are scheduled from 20th September 2023 to 23rd September 2023. The students are requested to prepare the topics for paper and project related to latest trends in IT.

MEENAKSHI SUNDARARAJAN ENGINEERING COLLEGE

DEPARTMENT OF INFORMATION TECHNOLOGY

E^3-ENRICHMENT, ENHANCEMENT, EMPOWERMENT REPORT

The IT Department of Meenakshi Sundararajan Engineering College conducted a "E^3-Enrichment, Enhancement, Empowerment" on 10th March to 14th March 2023 for 2nd, 3rd and 4th year IT students.

OBJECTIVE:

"E-Cube: Enrichment, Enhancement, and Empowerment" is an event meticulously designed to foster the holistic development of IT students by providing them with a platform to showcase their technical prowess and collaborative abilities. Through individual presentations, students can articulate their innovative ideas to a discerning panel of judges, honing their communication skills and ability to effectively convey complex concepts PO(10). Moreover, the requirement for team projects cultivates teamwork, leadership, and negotiation skills as students collaborate, delegate tasks, and navigate through challenges together.

This event not only enhances technical proficiency but also serves as a catalyst for personal growth. Final year students benefit from engaging in group discussions that simulate real-world job interviews, enabling them to refine their presentation skills, critical thinking, and adaptability in high-pressure situations. Moreover, the opportunity to apply their knowledge and skills in practical scenarios instills confidence and self-assurance, preparing them for future career endeavors PO(12)

By emphasizing both individual and collaborative efforts, E-Cube empowers students to leverage their technical expertise while simultaneously developing invaluable soft skills crucial for success in the professional world PO(9). Through this multifaceted approach, students emerge from the event not only as proficient technologists but also as confident, articulate, and adaptable individuals ready to make meaningful contributions to the IT industry PO(6)

OUTCOME:

1. Enhanced Presentation Skills
2. Strengthened Teamwork Abilities
3. Boosted Confidence in Job Interviews
4. Cultivated Leadership Skills
5. Expanded Networking Opportunities.

E3 PAPER PRESENTATION II YEAR III SEMESTER (2022-2026)

Scientific method is fundamental to successful experimentation! The E-cube was an occasion of E3 - Enrichment Enhancement and Empowerment conducted by our department. The students of the computer science and engineering department presented papers on various topics in the CSE domain on 22nd and 23rd September 2023. The topics were chosen from various fields like Artificial intelligence, Virtual Reality, Cloud Computing and Machine Learning, based on current professional trends.

The program was well organised and it was an enlightening experience for all the students. The judges were from highly reputed organisations. On 22nd September 2023 the judges for the paper presentation event were Mr.M.Tharik Anwar Software Developer and Mr.A.Abdul Ashik Software Developer from Retech solution and 23rd September 2023 the judges for the paper presentation event were Mrs.Reshma, Mr.Gowri Shankar and Mr.Akash accompanied by Mrs.M.R.Nithya and Mrs.M.Sumithra (AP/CSE).

The students were actively involved in every session and enthusiastically presented their papers. The judges shared their valuable knowledge about the industry and how we can improve ourselves. They encouraged us to learn new skills to be a better match to the industry's needs. They gave us an insight into the current trends in the technical arena and widened our perspectives of the vast opportunities that lie ahead of us.

After every presentation, the judges provided the students with valuable criticism. The feedback aimed at the students was very useful and helped us recognise our strengths and weaknesses. They discussed the importance of presenting papers and how such events help us stand out in the competitive world that demands such skills. Their criticism and words of encouragement made all the students feel invigorated to participate in more paper presentations and technical events in the future.

Prize winners:

S.N O	Name Of The Student	Paper Title
1.	Harsha Vardhini K S	Data Mining: Discovering Hidden Treasures in Your Data
2.	Sentamil Mukilan R M	Gen AI
3.	Anjana Rao S	Honey Pot- Protection against cyber attackers
4.	Yúvasree P	BlockChain World
5.	Ramya Devi R	Prompt Engineering For Effective Interaction With AI

We would like to thank our Principal, our HOD and our teachers who gave us this opportunity to enhance our technical and presentation skills.

E³ MINI PROJECT PRESENTATION

III YEAR V SEMESTER

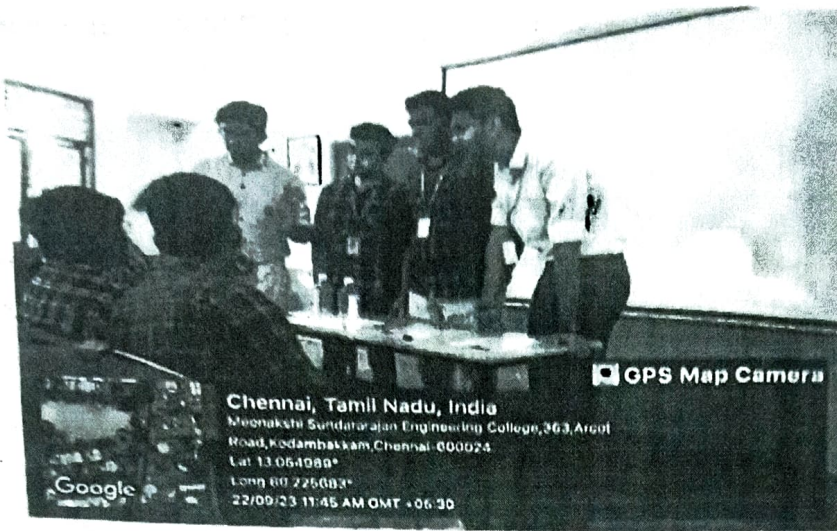

BATCH- (2021-2025)

Scientific method is fundamental to successful experimentation. The E-cube was an occasion of E³ - Enrichment, enhancement and Empowerment conducted by the department of CSE on 22th of September 2023. The students presented mini projects on various topics from various fields in CSE domain like Text classification, Speech recognition, Machine learning and ensembling Techniques etc... based on current professional trends.

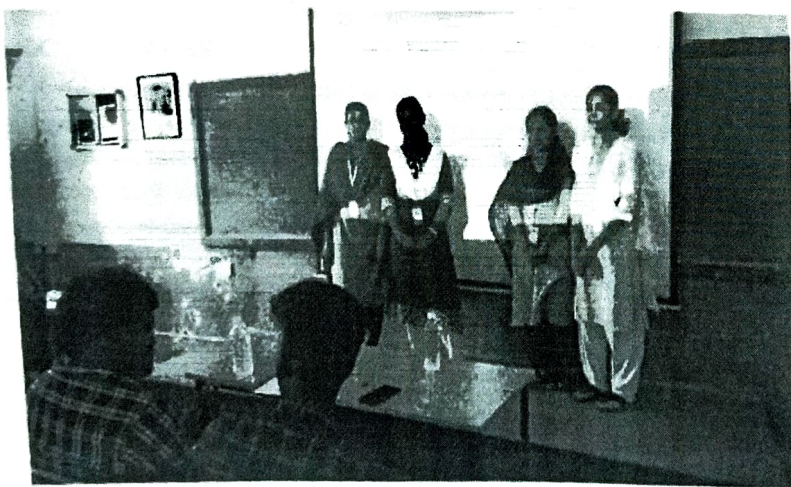

The program was well organized and it was an enlightening experience for the students. The panel of judges on 20th March were **Mr.Kowshik.K(senior developer cognizant)** , **Mr.Sanjay kumar .N(Associate consultant kaar)**who were accompanied by **Mrs. M.Sowmiya and Mrs. V. Sundari**

The Mini Project Presentation, Group Discussions, and Mock Interviews events have been instrumental in nurturing well-rounded professionals. The constructive criticism and encouragement from judges have not only helped students recognize their weaknesses but have also motivated them to work on their skills. As a result, our students are now better prepared to stand out in the competitive world, armed with both technical knowledge and the ability to effectively communicate and present their ideas. These events have instilled a sense of confidence and enthusiasm among our students to actively participate in more paper presentations and technical events in the future. With these experiences, they are well-prepared to excel in their academic and professional journeys.

GROUP DISCUSSION

A group discussion is a structured conversation among a group of individuals with the goal of sharing ideas, opinions, and perspectives on a specific topic or issue. Participants take turns expressing their thoughts, listening to others, and engaging in a constructive dialogue to collectively explore the subject matter. Group discussions are often used in various settings, such as educational institutions, workplaces, and social gatherings, to foster communication, critical thinking, and problem-solving skills. They provide a platform for diverse viewpoints and collaboration, ultimately leading to a better understanding of the topic and potential solutions to challenges.

MOCK INTERVIEW

A mock interview is a simulated practice session that mimics a real job interview scenario. It involves a candidate facing a set of interview questions and assessments, typically conducted by a mentor, career coach, or peer. The purpose of a mock interview is to help individuals prepare for actual job interviews by refining their responses, improving their confidence, and receiving constructive feedback on their performance.

The judges awarded marks for each presentation based on the topic, content presented and the student's Mini project presentation. Based on the above rubric, the best four Mini project presentations were selected and announced.

S. No.	NAME OF THE STUDENT	MINI PROJECT TITLE
1	Ashwin H Prasanth.S Charan M Srirenganathan	IOT enabled predictive maintenance for machines
2	Gayathri R. Lakshmi R Vaishnavi K.G Harini.K	Speech emotion recognition
3	Shruthi priya G.K Sulaksha B.K Rithika.G Amritha.P	Comparison of ensembling techniques
4	Jaya Aishwarya Roopini Nandhini	Sentimental analysis of twitter dataset using ML.

We would like to thank our Principal, our HOD and our teachers who gave us this opportunity to enhance our technical and presentation skills.

REPORT - E-CUBE

TOPIC: PAPER PRESENTATION

DATE: 22/9/2023, 23/9/2023

E-CUBE PAPER PRESENTATION:

The E-CUBE -Enrichment, Enhancement, Empowerment was arranged by the department of Computer Science and Engineering students IV Year (Batch: 2020 – 2024) Computer Science and Engineering on Date 22.09.2023 and 23.09.2023. E-CUBE enables students to develop their presentation skills and is an opportunity for students to understand their weaknesses and flaws while they are presenting their topics.

ABOUT THE JUDGES

The event was conducted for 2 days, 22.09.2023 and 23.09.2023. The students presented their presentation in front of the judges, Mr Harish Kumar who works as a Product Manager at Zoho desk, Mr. Jobin who works as a Project Trainee at Zoho, Mr. M. Tharik Anwar who works as a Software Developer at Retch Solution and Mr. A. Abdul Ashiek who works as a Software Developer in Retch Solution.

FIRST DAY OF THE EVENT:

The first day of the event was conducted on 22-09-2023 among the honourable judges Mr. Harish Kumar who works as a Product Manager at Zoho desk and Mr. Kishore Karthick who works as a Project Trainee at Zoho. The Students shared their ppt and acknowledged the technical knowledge they gained about their topics. The judges were friendly and cleared the students doubts and also gave corrections in their ppt based on industry point of view.

DESCRIPTION:

Paper presentation generally refers to an oral presentation about completed projects for which the results are reported as a part of the presentation. E-CUBE paper presentation plays a vital role in developing students' presentation skills and making them understand and realise their strengths and weakness while presenting. The presentation primarily focussed on bringing out innovative ideas from students on the latest trending technologies.

- In the E-CUBE event, each individual will analyse a project based on the recent technologies and also do a lot of research on the topics so that they can have a clear idea on what to present which makes their presentation more innovative, interesting and appropriate.
- Some of the projects presented by the students were 3D Internet, 3D Password, Devops, and so on. The technologies discussed are well developed technologies which are being updated on a regular basis. Public speaking is a great opportunity to build your reputation by showing your knowledge and

expertise. It also improves communication skills and provides you an opportunity to learn in detail about a core domain or a technology.

- The students created slides based on the knowledge they gained while analysing their topics. This method of presentation is a good way of acquiring knowledge on updated topics.

CONCLUSION:

The presentation was evaluated based on their technical knowledge, soft skills and their way of presenting it. The event concluded successfully with the students learning about the latest advancements in technology and motivating them to research and work on these topics.

Ecube Invite-Department of Information Technology,Meenakshi sundararajan Engineering College

K

Kanimozhi A, HOD - Information Technology - Meenakshi Sundararajan Engineering College

Respected Sir,

A week Of E³ (ENRICHMENT, ENHANCEMENT, EMPOWERMENT) is conducted by our college every academic year. The focal point of this event is to hone their presentation skill and drive out the fear in them. Each student is made to present a paper and a project as well, selecting a topic in their respective fields. This enables the student to improve their technical skills and stay abreast with the latest developments in their own field.

People rich with experience and good guidance are sure to lay the path of success to achieve our goal. Hence, on behalf of the IT Department we invite you to judge the Project presentation event on 23/09/23 at 9. am to 4 pm for Final year IT students. We also request to share your thoughts among us.

Regards

Dr. A.Kanimozhi

PLACEMENT PORTAL

Abstract:

A placement helper protocol is a smart and easy solution for placement activities by developing software which manages placement activities. The objective of this project is to develop a system that can be used by placement cell of a college. This software is helpful for the students and staffs to check, manage and maintain all the details about the placement that take place in the institute. Software development is based on complete modular architecture. This modularity of the architecture will allow us to replace or add modules in the future. The system also provides the facility of viewing the personal and academic information of the student. The system gets the requested list of candidates for the companies who would like to recruit the people according to their eligibility criteria. A total cover and detailed explanation about the placements, alumni details with earlier placements, placement incharge details, and total management system about placements is given as a application for the students use as well as for the staffs.

Feedback from the Resource Person:

- students should be advised to choose topics which is latest a
should be specific in a domain - better a IEEE journal - student
be taught to prepare a Presentation - should not just include screens

MEENAKSHI SUNDARARAJAN ENGINEERING COLLEGE

Kadambakkam, Chennai

Department of Computer Science and Engineering
Academic Year: 2023-2024 (ODD SEM)

The "DISTRIBUTED COMPUTING GUEST LECTURE" was conducted by Mr. Hari Haran (Developer of Amazon) on 14.10.23.

Initially we had an intro session about distributed computing. The distributed network was explained with real time performance. This created an atmosphere for smooth conduction of the seminar. This seminar mainly focuses on various distributed computing techniques.

MEENAKSHI SUNDARARAJAN ENGINEERING COLLEGE
363, ARCOT ROAD, KADAMBAKKAM
CHENNAI-600 024

COMPONENTS:

- Devices or Systems
- Network
- Resource Management

CHARACTERISTICS:

- Multiple Devices or Systems
- Peer-or-Peer Architecture
- Shared Resources
- Horizontal Scaling

He explained about these topics in real-time basis. The complexity, security and performance of distributed computing systems.

PRINCIPAL
MEENAKSHI SUNDARARAJAN ENGINEERING COLLEGE
363, ARCOT ROAD, KOYAMBAKKAM
CHENNAI-600 024

In the end we had a question answer session where students asked questions related to placements and he explained his expectations and eligibility of each individual to be a computer science engineer. Students also enquired him about various skill sets required for effective programming and cracking technical level stage in interview.

Thus the seminar created an awareness on students about the various effective methods in and around programming efficiency in distributed network.

Class: III/V

Date: 14.10.2023

Total no. of Students Attended: 68

Theme: Network Basis

Resource Person: Mr. Hari Haran

Summary of the Session:

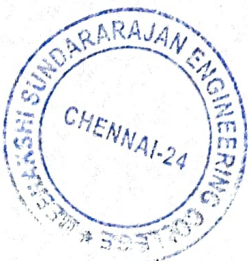

He explained about the most network basis programs.

Feedback from the Students:

Seminar turned into the helpful one with the concepts taught and the material offered.
