### AEP

### (ACHIEVE EXCELENCE PROGRAM)

#### AEP SOP PLAN:

Our institution employs a premier practice for achieving excellence in academic development through the Achievement Excellence Program (AEP). This system is designed to ensure a 100% pass rate and that every student earns their degree within the designated course duration. Under the AEP system, students are categorized according to their academic performance, including class tests, internal assessment tests (IATs), and university exam results. Students are divided into two groups.

Group 1 comprises students who score between 0% and 25% and require additional support as they are slower learners. Group 2 consists of students who score between 26% and 49%. Group 1 students receive targeted support from Faculty-1, who focuses on teaching and clarifying crucial and frequently asked university questions in their respective subjects to help them achieve satisfactory pass marks.

Conversely, Faculty-2 is responsible for instructing and guiding Group 2 students, with the process alternating daily, providing 5 hours of instruction per week as per the timetable. The primary goal of the AEP system is to achieve a 100% pass rate and ensure that all students obtain their degree certificates within the prescribed course completion time.
