

TEAM CHANAKYA

BAJA SAE INDIA 2021

BAJA SAE INDIA is an event organised by the Society of Automotive Engineers, takes under-graduate students beyond textbook theory by enabling them to design, build, and test the performance of a real All-Terrain Vehicle (ATV) and then compete with other students from around the nation in exciting and intense competitions. It has grown popular over the years to gain valuable exposure with recruiters from leading companies in the mobility industry to help land their first engineering job after graduation.

BAJA SAE INDIA 2021, the 13th edition of the renowned event, was conducted in online mode, with static events taking place on Zoom platform and dynamic events evaluated through IPG Carmaker virtual simulations.

The students of Meenakshi Sundararajan Engineering College have participated in the events as **Team Chanakya**, with participants from the Department of Mechanical Engineering, Batch 2018-2022. They made glorious attempts in all the required static and dynamic events of BAJA SAE INDIA 2021 and have secured **17th place** among 150 m-BAJA participants in the Manufacturing Event.

The team has gained valuable knowledge in the automobile sector in all fields like design, analysis, manufacturing, evaluation and has gained experience in actual technical aspects of an automobile. Participation in these events exposed the team to various software for design, analysis, virtual track testing and manufacturing & assembly line protocols and techniques.
